The Origins of Yoga and Tantra Geoffrey Samuel, 2008-03-27 Yoga tantra and other forms of Asian meditation are practised in modernized forms throughout the world today but most introductions to Hinduism or Buddhism tell only part of the story of how they developed This book is an interpretation of the history of Indic religions up to around 1200 CE with particular focus on the development of yogic and tantric traditions It assesses how much we really know about this period and asks what sense we can make of the evolution of yogic and tantric practices which were to become such central and important features of the Indic religious scene Its originality lies in seeking to understand these traditions in terms of the total social and religious context of South Asian society during this period including the religious practices of the general population with their close engagement with family gender economic life and other pragmatic concerns

The Tibetan Book of the Great Liberation W. Y. Evans-Wentz, 2000-09-28 The Tibetan Book of the Great Liberation which was unknown to the Western world until its first publication in 1954 speaks to the quintessence of the Supreme Path or Mahayana and fully reveals the yogic method of attaining Enlightenment Such attainment can happen as shown here by means of knowing the One Mind the cosmic All Consciousness without recourse to the postures breathings and other techniques associated with the lower yogas The original text for this volume belongs to the Bardo Thodol series of treatises concerning various ways of achieving transcendence a series that figures into the Tantric school of the Mahayana

Authorship of this particular volume is attributed to the legendary Padma Sambhava who journeyed from India to Tibet in the 8th century as the story goes at the invitation of a Tibetan king Padma Sambhava's text per se is preceded by an account of the great guru's own life and secret doctrines It is followed by the testamentary teachings of the Guru Phadampa Sangay which are meant to augment the thought of the other gurus discussed herein Still more useful supplementary material will be found in the book's introductory remarks by its editor Evans Wentz and by the eminent psychoanalyst C G Jung The former presents a 100 page General Introduction that explains several key names and notions such as Nirvana for starters with the lucidity ease and sagacity that are this scholar's hallmark the latter offers a Psychological Commentary that weighs the differences between Eastern and Western modes of thought before equating the collective unconscious with the Enlightened Mind of the Buddhist As with the other three volumes in the late Evans Wentz's critically acclaimed Tibetan series all four of which are being published by Oxford in new editions this book also features a new Foreword by Donald S Lopez
