Zack Wheat Joe Niese,2020-12-01 Zack Wheat was long considered the greatest player in Dodgers history The Missouri native parlayed his tenacious work ethic and raw skills into a major league career For almost two decades the mild mannered outfielder was a mainstay for the Dodgers bringing stability to a team that was at times unhinged To this day Wheat is the franchise leader in several batting categories Greatly respected by his peers and adored by fans Wheat served as Brooklyn s captain for several years leading the club to two pennants 1916 and 1920 After his playing days Wheat found difficulty working his way back into the game and was nearly killed in an automobile accident as a member of the Kansas City police force before finding redemption in election to the Hall of Fame in 1959 *Lost in the Sun* G. P. Wee,2018-08-24 When most baseball fans think back to the 1988 World Series between the Los Angeles Dodgers and Oakland Athletics they probably remember Kirk Gibson s dramatic home run off Dennis Eckersley Orel Hershisers shutout streak and dominant postseason pitching that got them there or perhaps the fact that it remains to this day the last World Championship for the Dodgers In The 1988 Dodgers Reliving the Championship Season K P Wee tells the story of this incredible year More than just Gibson or Hershisers the team s success came from a true collective effort in which all 25 players on the roster made significant contributions throughout the season Featuring dozens of interviews with players including those lesser known Dodgers who were just as important to the team as the stars coaches scouts and general manager Fred Claire Wee provides a refreshing view of the 1988 season sharing personal stories and little known anecdotes told to him by the players and staff The players also reflect on the importance of the entire team that season their careers following the World Championship and life after baseball giving readers a complete inside look at a season and team to remember *The Coming Singularity* Gary A. Freitas,2022-08-31 As we approach 2050 it is projected that human consciousness will encounter a superior intelligence for the very first time artificial machine intelligence It is important for us to understand the evolutionary impact of this event but

also that we are being altered from the inside out for the singularity to arise Are we ready Will we be adaptive How will we change The Coming Singularity explores the psychological impact of the changes coming our way and the many adaptations we will have to make We are transitioning to a world of one degree of separation with only the illusion of privacy autonomy and anonymity All of us are undergoing a transition to an electronic identity one that can reach back and change the real you The question going forward will be who is the real you A cluster of psychological symptoms are evolving from our technology interface Identity Diffusion Its key feature is the de realization of life Direct brain to technology interfaces will soon render our brains an open source forum We need to discuss who is in there and why The impact of e technology on human identity will be profound but it is also a prerequisite for machine intelligence to arise We need to discuss this We humans reside in complex dynamical networks The goal of artificial intelligence will be to evolve and stabilize these networks And we may not be the priority
