East Asian Media Culture in the Age of Digital Platforms Dal Yong Jin, Kyong Yoon, 2025-09-11 Focusing on the convergence of popular culture and digital platforms in the East Asian context this book delves into the increasing role of East Asia not only as the largest cultural market but also as one of the most rapidly developing cultural industries in the global platform economy Through the analytical framework of the platformization of cultural industries this volume theoretically and empirically explores how East Asian popular culture and digital platforms have been intertwined and evolved Analyzing how East Asian media narratives industries and audiences are integrated into digital platformization the book contributes to an enhanced and timely understanding of transnational cultural flows in platform driven media landscapes of the early 21st century The comprehensive and significant analyses of the dynamic changes and persistent features of East Asian cultural convergence within the broader ebb and flow of global modernity will make this book an ideal selection for students and researchers of media studies cultural studies digital media Korean studies Chinese Studies Japanese studies East Asian studies sociology anthropology and globalization studies

Netflix's Speculative Fictions Colin Jon Mark Crawford, 2020-12-10 Netflix's *Speculative Fictions* Financializing Platform Television argues that Netflix's scaled expansion has hinged upon its ability not only to create but more importantly to communicate new forms and flows of potential value in platform capitalism wherein capital is mobilized not only from direct revenue streams but also the new value assigned to inputs and investments of data debt attention behavior taste time sociality and speculation To interpret and critique these new communications and projections of value Colin Jon Mark Crawford performs a discursive analysis of the platform television industry leader Netflix and its investor lore the multi-sited narrative of value found in the company's investor relations materials and corporate communications such as letters to shareholders financial earnings reports executive interviews press releases and blog posts Netflix best represents the increasingly ubiquitous nexus of culture tech and finance industries that is platform television To better understand the emergent financial logics of this relatively new media industry we must first understand the speculative narratives and discourses of value which organize it Scholars of media studies television studies technology studies and economics will find this book particularly useful

Netflixed Gina Keating, 2012-10-11 Netflix has come a long way since 1997 when two Silicon Valley entrepreneurs Marc Randolph and Reed Hastings decided to start an online DVD store before most people owned a DVD player They were surprised and elated when launch day traffic in April 1998 crashed their server and resulted in 150 sales Today Netflix has more than 25 million subscribers and annual revenues above 3 billion Yet long term success or even survival is still far from guaranteed Journalist Gina Keating recounts the absorbing fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever Then it jumped into an even bigger battle for online video streaming against Google Hulu Amazon and the big

cable companies Netflix ushered in such innovations as DVD rental by mail a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals Yet for all its success Netflix is still a polarizing company Hastings is often heralded as a visionary he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter Keating makes this tale as absorbing as it is important
