Marketing Analysis in Sport Business Kevin K. Byon, Brian H. Yim, James J. Zhang, 2022-07-15 This book explores sport marketing analytics, an essential and crucially important aspect of contemporary sport business. Successful sport marketing begins and ends with the consumer, so understanding the consumer experience is critical. Marketing Analysis in Sport Business demonstrates how rigorous analytical procedures are the key to developing effective evidence-based marketing practices that reflect real consumer needs. Presenting cutting-edge case studies of sport marketing analytics in action, the book explores topics such as digital communications, social media, digital ticketing, event marketing, the economic impact of COVID-19, developing sport brands, and conducting research with athletes and event participants. Written by a team of authors from 15 countries including Australia, China, France, Iran, Italy, Japan, Mexico, New Zealand, Serbia, South Korea, Spain, Taiwan, the United Kingdom, the United States, and Venezuela, the book offers insight from a variety of cultural contexts and new perspectives on the global sport industry. **Understanding Business & Legal Aspects of the Sports Industry**, 2000 Classified Index of National Labor Relations Board Decisions and Related Court Decisions, 1992 Brandweek, 2008 **Governance in Sport** Bonnie Tiell, 2025-06-17 At its core, sport governance encompasses two key elements: power and decision making. To truly grasp a sport organization's purpose and structure, it is essential to understand who wields power and which decisions are made by those who possess it. Regrettably, the abuse of power coupled with ineffective governance and lackluster leadership has fostered widespread corruption within sport organizations, a situation that calls for a renewed commitment to practicing principles of good governance and restoring integrity and ethical conduct. In response, the updated and enhanced Governance in Sport: Analysis and Application, Second Edition, aims to equip students with the skills to navigate both ordinary and extraordinary situations encountered in the oversight and authority of sport organizations at all levels of sport. Governance in Sport examines sport governance from three broad analytical and applied perspectives: a legal and managerial overview of practices, processes, and policies in sport organizations encompassing ethical behavior, effective leadership, decision making, and policy development; a framework of

the structures and functions of regulatory agencies that govern state national regional and international sports An applied overview of governance and authority in selected sectors of the industry including professional sports amateur sports sports media sports betting esports and more Through examinations of contemporary hot button issues and compelling new case studies covering the Ukraine invasion Brittney Griner transgender athletes in sports LIV Golf versus the PGA conference realignment name image and likeness NIL issues the Kanjuruhan Stadium catastrophe and the workplace misconduct in the Washington Commanders organization students will see how governance differs in sport organizations at various levels in the United States and around the world Additional new features include the following Headlines begin each chapter calling out incidents of corruption within the sport industry Rules and Regulations Corners provide quick overviews of policies and laws affecting weighty issues Combating Corruption sections offer best practices for preventing and minimizing behavior deemed illegal unethical or counterintuitive Governance in Action case sidebars explore real world examples of conflicts and conundrums related to the chapter topic and include discussion questions suggested responses to the questions can be found in the instructor guide Recorded lectures by author Bonnie Tiell are available for each chapter of the book Instructors can use these videos to enhance their lectures With Governance in Sport students will develop an understanding of where power resides how decisions are made and the impact of those factors on the goals and structures of sport organizations
