How To Save Money Hamilton Blanza, 2018-10-17 Some people I just don't have money while others have saving accounts full to the brim. What is the mind that makes some people spend while others just don't do it? How to convert from a person who can't have a saving until you can boast off saving money is just as much a part of human nature as anything else. You're a person with a personality that can save money or a person with a personality that can't. The brain is like any other body part and it can become good or bad. For example, you don't know about dieting or you don't know how to drive a car in the first place. The knowledge started small and it's a very important mindset it is about making huge savings all the time but I'm adopting a small rule in my life that every little adds up. This principle is the most important thing in saving money. Letting for that 100 dollars put in your saving account will not do the trick especially if you are not a money saver. Making a habit of saving or not making a habit of saving will help you build a habit which would transform into a big fortune over a period of time. You have to train your brain to learn from your mistakes and persevere to make saving a habit and part of your routine. It's a fruitful rule.
