Discourse, Dialogue and Technology Enhanced Learning Rachel Pilkington,2015-11-19 Discourse Dialogue and Technology

Enhanced Learning is invaluable to all those wanting to explore how dialogic processes work and how we facilitate them. Dialogue is an important learning tool and it is by understanding how language affects us and how we use language to encourage, empathise, inquire, argue and persuade that we come closer to understanding processes of change in ourselves and our society. Most researchers in Education will find themselves interpreting some form of data in the form of words, whether these words be explanations, conversations, narrations, reflections, debates or interviews, and whether they are conducted through digital media or face to face. Discourse, textual or spoken, is therefore central to researching education. Each chapter focuses on the ways in which alternative levels of discourse analysis provide tools for the researcher, enabling insights into the way language works in learning, teaching practice and wider society. Drawing on the author's own DISCOUNT discourse analysis coding scheme and including a wide range of dialogue examples, this book covers:
