Laboring Mothers Ellen Malenas Ledoux, 2023-11-10 Motherhood inherently involves labor The seemingly perennial notion that paid work outside the home and motherhood are incompatible however grows out of specific cultural conditions established in Britain and her colonies during the long eighteenth century With *Laboring Mothers* Ellen Malenas Ledoux synthesizes and expands on two feminist dialogues to deliver an innovative transatlantic cultural history of working motherhood Addressing both actual historical women and fabricated representations of a type Ledoux demonstrates how contingent ideas about the public sphere and maternity functioned together to create systems of power and privilege among working mothers Popular culture has long thrown doubt on the idea that women can be both productive and reproductive at the same time Although the critical task of raising and providing for a family should in theory foster solidarity this has not historically proven the case *Laboring Mothers* demonstrates how contemporary associations surrounding economic status race and working motherhood have their roots in an antiquated and rigid system of inequality among women that dates back to the Enlightenment

Breastfeeding and Culture: Discourses and Representations Anne Marie Short, 2018-04-01 For myriad reasons breastfeeding is a fraught issue among mothers in the U S and other industrialized nations and breastfeeding advocacy in particular remains a source of contention for feminist scholars and activists Breastfeeding raises many important concerns surrounding gendered embodiment reproductive rights and autonomy essentializing discourses and the struggle against biology as destiny and public policies that have the potential to support or

undermine women and mothers in particular in the workplace The essays in this collection engage with the varied and complicated ways in which cultural attitudes about mothering and female sexuality inform the way people understand embrace reject and talk about breastfeeding as well as with the promises and limitations of feminist breastfeeding advocacy They attend to diffuse discourses about and cultural representations of infant feeding all the while utilizing feminist methodologies to interrogate essentializing ideologies that suggest that women s bodies are the natural choice for infant feeding These interdisciplinary analyses which include history law art history literary studies sociology critical race studies media studies communication studies and history are meant to represent a broader conversation about how society understands infant feeding and maternal autonomy

Manuscript Recipe Books as Archaeological Objects Madeline Shanahan, 2014-11-18 During the mid to late seventeenth century women in Irish houses from elite backgrounds started to collect recipes which they recorded in domestic manuscripts While these manuscripts were made elsewhere at an earlier date they were an almost entirely new arrival to Ireland in this period and their sudden proliferation said much about changes taking place in society at large This book is a detailed study of such manuscripts from the perspective of historical archaeology which will argue that they are artifacts which clearly demonstrate that a profound series of changes was taking place The written word penetrated people s daily lives and homes to a degree that it had not in previous periods and it had a profound influence on how they related to their world objects and each other While this book will address how we can use them as sources for the study of food history and material culture it is ultimately concerned with the meanings of manuscript recipe books and specifically what they say about the individuals and society that made them The proliferation of these manuscripts signaled a profound change not just in cuisine but also in the way people thought about and related to food as a form of material culture Ultimately this book will argue that these manuscripts are not simply excellent records which can tell us about material culture within the early modern house but that they are a profoundly important type of artifact in their own right Undertaking research that situates textual objects such as recipe books at the very core of historical archaeology is critical to understanding some of the most significant changes that took place in the early modern world
