Bentley, 2020-12-28 As the first book in English on the origins of Japanese historiography using both archaeological and textual data this book examines the connection between ancient Japan and the Korean kingdom of Paekche and how tutors from the kingdom of Paekche helped to lay the foundation for a literate culture in

Japan Illustrating how tutors from the kingdom of Paekche taught Chinese writing to the Japanese court through the prism of this highly civilized culture the book goes on to argue that Paekche tutors guided the early Japanese court through writing recording family history and ultimately an early history of the ruling family As the Japanese began to create their own history they relied on Paekche histories as a model Triangulating textual data from Kojiki Nihon shoki and Sendai kuji hongei the author here demonstrates that various aspects of early king genealogies and later events were manipulated Offering new theories about the Japanese ruling family it is posited that Emperor Jit had her committee put Jing in power and Suiko on the throne in place of original male rulers to enhance images of strong female rulers as she envisioned herself The Birth of Japanese Historiography will be a valuable resource for students and scholars of Japanese history historiography and linguistics

long struggle for family law reform in Australia It also tells the story of the formation of Dads On The Air What began with a small group of disgruntled separated men in Western Sydney in 2000 has gone on to become the world s longest running and most famous radio program dedicated to issues around fatherhood regularly interviewing national and international activists advocates academics and authors Its archives now present a fascinating history of the men s and fatherhood movement of the early part of the millennium Dads On The Air was strategically placed to cover the push for family law reform in Australia Despite the founder s intent that shared parenting be the norm for the so called helping court aka The Family Court of Australia and subsequent legislative attempts to impose shared parenting post separation as the most civilised outcome for separating couples such was never to be The Family Court rapidly became a law unto itself imposing sole mother custody on separating families despite all the documented harm of this style of custody order denying fathers contact with their children on the flimsiest of excuses Overly legalistic enormously bureaucratic secretive and unaccountable defying public norms of decency and probity it soon became one of the country s most hated institutions To this day it has remained remarkable resistant to reform and indifferent to the public odium it attracts Chaos At The Crossroads concludes Successive governments from both left and right have failed to listen to their constituents and respond to their concerns They have resorted to vested inquiries in the hands of the mandarins and publicly funded elites whose feigned attempts to listen to the views of ordinary people have then been heavily reinterpreted They have delayed progress through the extensive manipulation of committees or other forms of alleged inquiry These same governments even when they were enacting legislative reforms left their enforcement in the hands of institutions notoriously resistant to change They allowed or encouraged fashionable ideology institutional inertia and bureaucracy to triumph over common sense Common decency was lost long ago In terms of human suffering the Australian public has already paid dearly for the failure to reform outdated badly administered and inappropriate institutions dealing with family law and child support and for the failure of governments to take seriously the experiences and voices of the men and women most directly affected by them The country s failure to reform family law and child support is ultimately a failure of democracy itself
