New York Court of Appeals. Records and Briefs. New York (State)., **New Suits** Michele DeStefano, Guenther Dobrauz-Saldapenna, 2019-06-15 Time to get out of Law Land and back into the Jungle Fuelled by advancing technology new business models and altered client expectations the legal industry faces unprecedented change across its entire value chain Unfortunately many legal professionals fear the technology train and the convergence of other fields with law They see legaltech AI and bots like lions and tigers and bears oh my We the editors and authors of this book see opportunity Although the future may require us to put on new suits it represents an enormous opportunity for lawyers to reinvent ourselves for our own and our clients benefit Filled with chapters written by experts in the intersection of law innovation and technology this book provides a global perspective on the diverse legal service delivery ecosystem that will be our future It provides chapter upon chapter reason upon reason explaining why lawyers can and should increase their

appetite for disruption in the legal world So welcome to the jungle and enjoy the ride as we attempt to systematically map the uncharted waters of the future legal realm and simultaneously inspire you to build a new future in law Records & Briefs New York State Appellate Division , *Continuous Auditing with AI in the Public Sector* Lourens J. Erasmus,Sezer Bozkus Kahyaoğlu,2024-09-18 The effectiveness of internal audit activities is important for the sustainability of change in the public sector In this sense the tools and techniques used and the level of competencies of public sector auditors are decisive This book deals with the effects of current technological developments in the public sector on auditing and risk management activities Therefore it is a resource for public internal auditors to create a digital audit strategy based on artificial intelligence AI and blockchain based applications Institutionalisation of their structures is important for public sector internal auditors For this basic requirements future expectations and best practices are explained The digital business model is presented to produce value added audit findings and outputs that guide public internal auditors and all digital era stakeholders This book is a pioneering work based on continuous auditing continuous monitoring approaches using various AI and blockchain based tools and techniques There is nothing more valuable to the success of a public internal auditor than a detailed understanding of the business The important lesson in developing business knowledge especially in the new audit universe emerging with digital transformation is that all auditors must understand that they never finish learning about business processes risks and control points in the digital era They must constantly push themselves to be motivated and learn about the business operations they audit to implement new audit approaches powered by AI In addition to obtaining up to date business information from process owners and stakeholders public auditors responsible for conducting an AI based continuous audit programme should also look inside their departments for a different perspective on business information that impacts continuous audit programme phase details and has the potential to add value It should be noted that the additional source of information begins with your individual audit experience digital skills and qualifications
