Global University Rankings T. Erkkilä,2013-09-26 Global University Rankings explores the novel topic of global university rankings and their effects on higher education in Europe The contributions in this volume outline different discourses on global university rankings and explore the related changes concerning European higher education policies disciplinary traditions and higher education institutions The first global university rankings were published less than a decade ago but these policy instruments have become highly influential in shaping the approaches and institutional realities of higher education The rankings have portrayed European academic institutions in a varying light There is intense reflexivity over the figures leading to ideational changes and institutional adaptation that take surprisingly similar forms in different European countries The contributions in this book critically assess global university rankings as a policy discourse that would seem to be instrumental to higher education reform throughout Europe

Just Universities Gerald J. Beyer,2021-02-23 Third Place Catholic Media Association Catholic Social Teaching Gerald J Beyer s Just Universities discusses ways that U S Catholic institutions of higher education have embodied or failed to embody Catholic social teaching in their campus policies and practices Beyer argues that the corporatization of the university has infected U S higher education with hyper individualistic models and practices that hinder the ability of Catholic institutions to create an environment imbued with bedrock values and principles of Catholic Social Teaching such as respect for human rights solidarity and justice Beyer problematizes corporatized higher education and shows how it has adversely affected efforts at Catholic schools to promote worker justice on campus equitable

The Impoverishment of the American College Student James V. Koch, 2019-07-09 Is the end in sight for college tuition hikes Tuition and fees at public colleges and universities consistently have risen twice or even three times as fast as comparable increases in the Consumer Price Index in recent years Since 2000 these costs have even grown 60 percent faster than health care costs The results have been rapidly rising student debt now 1.4 trillion nationally rising delinquencies in debt repayment and a dysfunctional stratification of public college student bodies on the basis of family incomes This is a broken unsustainable model for the majority of public colleges Why has this occurred The multiple causes include declining state support the avaricious behavior of individual institutions their reluctance to adopt productivity increasing innovations their cost increasing competition for higher U.S. News ratings and misdirected federal student financial aid policies The key actors

are the 50 000 members of the governing boards of public colleges who too often forget that their primary responsibility is to citizens taxpayers and the 15 million students Instead board members are co opted by clever administrators into approving tuition and fee increases well beyond what is needed to make up for declining state funding Concerted informed public pressure on governors legislators and board members is necessary to move institutions in more positive directions Higher education funding and tuition and fee inflation are complicated matters that very few people understand well The Impoverishment of the American College Student clarifies the central issues and provides plentiful data to support its key points It is a must read for anyone who believes that maintaining access to and the affordability of public colleges are vitally important to our society s future
