Live Free or Die Lawfully: A devotional commentary on Galatians Joshua Wingerd, 2019-10-28 There are only two paths Freedom or Slavery Spirit or Flesh Faith or Law Blessing or Cursing Life or Death Which path are you on This is Paul's argument in the first letter he ever wrote under the Spirit's inspiration He wants his readers then and now to live in the path of freedom and life The Galatians had traded salvation by grace alone through faith alone for a gospel of works of Law Paul has some seemingly harsh words for them because to replace grace with anything else is to destroy the Gospel of Jesus Christ

Soundtrack of Silence Matt Hay, 2024-01-09 An inspiring memoir of a young man who discovered he was going completely deaf just at the moment he'd fallen in love for the first time As a child Matt Hay didn't know his hearing wasn't the way everyone else processed sound because of the workarounds he did to fit in even the school nurse didn't catch his condition at the annual hearing and vision checks But by the time he was a prospective college student and couldn't pass the entrance requirements for West Point Hay's condition generated by a tumor was unavoidable his hearing was going and fast A personal soundtrack was Hay's determined compensation for his condition As a typical Midwestern kid growing up in the 1980s whose life events were pegged to pop music Hay planned to commit his favorite songs to memory He prepared a mental playlist of the bands he loved and created a way to tap into his most resonant memories And the track he needed to cement most clearly The one he and his new girlfriend Nora the love of his life listened to in the car on their first date Made vivid with references to instantly recognizable songs from the Eagles to Elton John Bob Marley to Bing Crosby U2 to Peter Dinklage Soundtrack of Silence asks readers to run the soundtrack of their own lives through their minds It's an involving memoir of loss and disability and ultimately a both unique and universal love story

Modern Fiction, Disability, and the Hearing Sciences

Edward Allen, 2024-08-15 The relationship between critical disability studies and the hearing sciences is a dynamic one and it's changing still, both as clinicians come to terms with the evolving health of deaf and hearing communities and as the social and medical understandings of disability continue to gain traction among different groups. What might a cultural approach to these overlapping areas of study involve? And what could narrative prose in particular have to tell us that other sources haven't sensed? At a time when visual media otherwise seem to have captured the imagination, *Modern Fiction, Disability, and the Hearing Sciences* makes the case for a wide range of literature. In doing so, through serials, short stories, circadian fiction, narrative history, morality tales, whodunits, Bildungsromane, life writing, the Great American Novel, the book reveals the diverse ways in which writers have plotted and voiced experiences of hearing from the nineteenth century to the present day.
