archaeological data in order to validate the existing hypotheses on the way they were manufactured and used by the human communities. A second aim was that the invited authors to have various archaeological backgrounds and cover a broad spatial and temporal interval. As a result, this volume comprises 17 studies organized in three sections dictated by the various aspects of experimental archaeology: they represent from the more traditional experimental replication, understanding and interpretation of artefact functionality, and relatively recent and less trodden directions in experimental archaeology. It also comes to show that experimental archaeology is as well suited for Palaeolithic studies as it is for the Neo Eneolithic and the Bronze Age. Although most papers refer geographically to Europe, interesting contributions take us to Argentina and Australia.

Acest volum se concentrează pe rolul și mijloacele experimentelor arheologice în alegerea proceselor implicate în fabricarea și utilizarea artefactelor din trecut. Am invitat o serie de specialiști să contribuie cu studii care să testeze ipotezele teoretice existente, dar și altele care să aducă abordări inovatoare. Când am solicitat contribuții, am sugerat ca teme principale cele cinci etape ale demersului experimental:

1. Selectarea și achiziționarea de materii prime identice cu cele prezente în ansamblurile arheologice.
2. Realizarea de replici urmând schemele de transformare tehnologică identificate prin studiul direct al ansamblurilor arheologice.
3. Utilizarea experimentală după cum este indicat de publicații comparative etnografice sau sugerat de evoluția uzurii pe artefactele arheologice.
4. Analiza microscopică a modelelor de uzur.
5. Compararea datelor experimentale cu datele arheologice în vederea validării ipotezelor existente privind fabricarea și utilizarea lor de către comunitățile umane.

Un al doilea scop al volumului a fost ca autorii invitați să provină din diferite medii arheologice și să acopere un interval spațial și temporal larg. A rezultat un volum cuprinzând 17 studii organizate în trei secțiuni dictate de diversele aspecte ale arheologiei experimentale: replicarea experimentală la nivel tehnologic, alegerea și interpretarea funcționalității artefactelor și direcțiile relativ recente interdisciplinare în cadrul experimentului arheologic. De asemenea, volumul ne a arătat că arheologia experimentală este la fel de potrivită pentru studiile paleolitice ca și pentru neo eneolitic și epoca bronzului. Deși majoritatea lucrurilor se referă geografic la Europa, contribuții interesante vin din Argentina sau Australia.

YOU MIGHT DIE TOMORROW

Kate Manser, 2020-02-28

Are you living under the assumption that you'll have time to do the things you want to do later in life? Forget the idea that death is morbid and start using it as your greatest motivation to live your best life while you're still alive. Whether your dream is to quit your job, travel the world, be more present with your children or partner, or just really enjoy your life, remembering that you might die tomorrow is the perspective you need to start really living before you die. This book offers entertaining stories, engaging studies, and powerful strategies all to help you face your fear of death and light the fire in your gut to live your most meaningful life. How Kate went from living in fear of death to making it her close friend and best source of clarity. How to hack your fear of death for your benefit using the psychology of mortality awareness. The life prioritization exercise that will help you zero in on how you want to live and give you the motivation to start today. Inspiring, motivating, and honest.
