Pulhin,Makoto Inoue,Rajib Shaw,2021-03-18 This book explores how climate change and disaster risks threaten human security in Asia Climate change and disaster risks have emerged as major human security challenges in the twenty first century and are an imminent threat multiplier with the potential to harm the vital core of human life and curtail people s freedom and ability to live with dignity Climate change and disaster risks undermine the security of individuals communities nations and the world considering the increasing trend in the frequency and magnitude

of hydro meteorological disasters and the projections on their future adverse impacts Despite recent advances in the literature there is still a major gap in understanding the relationship and linkages between climate change disaster risks and human security particularly as gleaned from the Asian experience Asia is the world s most vulnerable region in terms of the quantity and magnitude of impacts from various forms of disaster At the same time it has developed a number of innovative responses to address those risks offering a wealth of experience Exploring and capitalizing on the Asian perspective this book provides valuable resource material for students academics researchers policymakers and development practitioners working in these areas

Transmedia Television M.J. Clarke,2012-12-20 Faced with what many were calling a dying medium US network television producers became much more aggressive in seeking out alternative business and artistic models in the beginning of this century Most significantly many of these producers turned to the emerging field of transmedia ancillary texts in comicbooks novels and new media as a way to bolster and support television products In this book the author examines four such programs 24 Alias Heroes and Lost and investigates how transmedia was incorporated into both the work and the art of network television production Split into two complementary parts the book first paints a picture of how transmedia producers were or were not incorporated into creative decision making centers of these serialized programs The second section explains how the presence of off site transmedia texts begins to alter the very narrative construction of the on air series themselves Including interviews with the transmedia workers this groundbreaking study extends the field of television studies into brand new areas and brings a dying medium into the 21st Century PC Mag ,2004-05-18 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology
