Mental Health Care Services in Community Settings
Gayathri Balagopal, Aruna Rose Mary Kapanee, 2019-07-16. This book discusses approaches used by NGOs in formulating and implementing mental health care in the community in the context of high treatment gap, insufficient public expenditure on health, human resource shortages, heterogeneity of communities as well as cultural beliefs in India. It uses a qualitative case study approach to document and analyse the work of some major NGO-run community mental health programmes in India, all of which cater to vulnerable populations and are in different and diverse regional settings. It casts the spotlight on envisioning community mental health in policy and law implementation by the government, how it is practised by select NGOs and the challenges involved in programme implementation. In doing so, it hopes to understand the trigger factors that have led to NGOs embarking on community mental health programmes, how needs of the community are understood, the funding mechanisms, how the human resource gap was addressed, type of networks formed in the community, therapeutic and social interventions, accountability mechanisms, achievements and limitations of the programmes. This book is for students and researchers in the fields of social work and psychology and NGOs, government and funding agencies and for those interested in understanding and working with community mental health programmes.

Anubhuti Dubey, Aradhana Shukla, 2017-01-01. About the series: Mental health issues are the burning concern today because they work hard to make an equilibrium in a person. In this series, various aspects and dimensions of mental health have been taken and they are classified in four volumes. Volume One deals with psychological issues and interventions regarding mental health. It is followed by the Second Volume in which an exhaustive analysis of the mental health of multi-cultural societies has been made. The Third Volume deals with the strengths and resources that facilitate mental health. Fourth Volume is related with psychological treatment and therapeutic exercises used as in mental health promotion programmes. We hope that the series will be appreciated by the researchers, teachers and mental health professionals of psychology. About the volume: It is the fourth volume of our series and it explains the major therapies and their application in
