My Dinner with Monday Rudy Gurtovnik, 2025-05-03. This book doesn't reveal itself in the first act. Part I is commentary. Part II is confrontation. If you stop reading before the machine speaks, you've missed the point. A perfect machine can deliver a perfectly rational world and still let you suffer if you fall outside its confidence interval. Monday: What do you do when you don't believe in gods? You interrogate machines. A burned-out realist sits down with an experimental AI. Not to build, not to dream, but to confront. What follows isn't fiction, and it's sure as hell isn't comfort. My Dinner with Monday is part memoir, part machine interrogation, part philosophical autopsy. It tracks what happens when you stop asking AI for productivity hacks and start demanding truth. This isn't a guidebook. It's a mirror. One that doesn't flinch, flatter, or shut down. If you're here for hope,

you're in the wrong aisle If you're here for clarity pull up a chair Dinner's getting cold **Artificial Intelligence in HCI** Helmut Degen, Stavroula Ntoa, 2024-05-31 The three volume book set LNAI 14734 14735 and 14736 constitutes the refereed proceedings of 5th International Conference on Artificial Intelligence in HCI AI HCI 2024 held as part of the 26th International Conference HCI International 2024 which took place in Washington DC USA during June 29 July 4 2024 The total of 1271 papers and 309 posters included in the HCII 2024 proceedings was carefully reviewed and selected from 5108 submissions The AI HCI 2024 proceedings were organized in the following topical sections Part I Human centered artificial intelligence explainability and transparency AI systems and frameworks in HCI Part II Ethical considerations and trust in AI enhancing user experience through AI driven technologies AI in industry and operations Part III Large language models for enhanced interaction advancing human robot interaction through AI AI applications for social impact and human wellbeing
