Mechanic and Mirror of Science and Art , 1883 *Records & Briefs New York State Appellate Division* , **Future Directions in Artificial Intelligence** Peter A. Flach, R. Meersman, 1991 The contributions to this book are from Artificial Intelligence specialists from all over the world Their ideas on the future of AI are original thought provoking and sometimes controversial The first section Methodology looks at how AI students should be educated AI s relationship to computer science and specialisation The next part discusses the paradigms that dominated AI research in the past such as the symbol processing paradigm and a perceived need for new paradigms Trends outlines the state of the art and trends in knowledge representation intelligent interfaces intelligent networking systems and distributed AI The fourth part Prospects looks further into the future suggesting important research topics and the future of AI research in general An important question is asked Why should anybody use AI technology anyway Simulation in CIM and Artificial Intelligence Techniques Johannes Retti, K. E. Wichmann, 1987 *Artificial Intelligence in Geography* Stan Openshaw, Christine Openshaw, 1997-07-07 This unique work introduces the basic principles of artificial intelligence with applications in geographical teaching and research GIS and planning Written in an accessible non technical and witty style this book marks the beginning of the AI revolution in geography with major implications for teaching and research The authors provide an easy to understand basic introduction to AI relevant to geography There are no special mathematical and statistical skills needed indeed these might well be a hindrance AI is a different way of looking at the world and it requires a willingness to experiment and readers who are unhindered by the baggage of obsolete technologies and outmoded philosophies of science will probably do best The text provides an introduction to expert systems neural nets genetic algorithms smart systems and artificial life and shows how they are likely to transform geographical enquiry A major methodological milestone in geography The first geographical book on artificial intelligence AI No need for previous mathematical or statistical skills knowledge Accessible style makes a difficult subject available to a wide audience Stan Openshaw is one of the world s leading researchers into geographical computing spatial analysis and GIS
