Defining, Measuring and Managing Consumer Experiences Annarita Sorrentino, 2020-09-30 This book offers a comprehensive overview of the challenges that marketing faces in understanding managing and measuring the dynamics of modern consumer behaviours and successfully managing the customer experience The reader will gain a deeper knowledge of the approaches to consumer behaviour and learn about the theoretical and empirical challenges of studying customer experience management It also considers the post modern consumer which requires a move beyond the purely rationalist perspective of traditional marketing and provides methodological support for firms and scholars who wish to measure cognitive emotional and behavioural consumer reactions More specifically it explores the changes in consumer behaviours the limitations of traditional measurement approaches and the importance of capturing small insights with neuromarketing metrics with a chapter contributed by a leading expert A new three point perspective on consumer behaviours is set out that combines behaviour what people do with the declared what people say and the perceived what people feel This approach acknowledges the complexity of consumer behaviours and the methodological bias derived from the use of the traditional techniques principally the survey or from big data Only a holistic perspective can capture the heterogeneous nature of consumer behaviour The book thereby takes up the theoretical debate about the definition management and measurement of customer behaviour It also examines measurement methodologies an area that has received little attention elsewhere Besides addressing the scientific community in the field the book will also be a valuable practical resource for marketing managers entrepreneurs and consultants who want to implement innovative strategies to manage the customer experience

Choosing College Michael B. Horn, Bob Moesta, 2019-08-20 Cut through the noise and make better college and career choices This book is about addressing the college choosing problem The rankings metrics analytics college visits and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make They don't give students and families the information and context they need to make

such a high stakes decision about whether and where to get an education Choosing College strips away the noise to help you understand why you're going to school What's driving you What are you trying to accomplish Once you know why the book will help you make better choices The research in this book illustrates that choosing a school is complicated By constructing more than 200 mini documentaries of how students chose different postsecondary educational experiences the authors explore the motivations for how and why people make the decisions that they do at a much deeper causal level By the end you'll know why you're going and what you're really chasing The book identifies the five different jobs for which students hire postsecondary education Allows you to see your true options for what's next Offers guidance for how to successfully choose your pathway Illuminates how colleges and entrepreneurs can build better experiences for each job The authors help readers understand not what job students want out of college but what job students are hiring college to do for them
