Advanced Strategic Management Roberto S. Vassolo, Natalia Weisz, Benjamin Laker, 2024-07-03 Advanced Strategic Management offers a distinctive evolutionary perspective unveiling consistent processes that shape competitive dynamics It goes beyond traditional boundaries exploring evolutionary trends across industry life cycles commodity cycles and the business cycle Seamlessly integrating analyses of environmental trends and the transformative impact of the digital revolution the book underscores the crucial role of regulations and taxes in influencing firm level performance A key strength lies in its holistic

coverage encompassing core elements of competitive and corporate strategy while delving deeper into advanced models and tools for strategic evaluation formulation and implementation This depth equips readers including future business leaders with a profound understanding of competitive dynamics The book s unique approach integrates strategic management with adaptive leadership offering readers a comprehensive and practical perspective rooted in extensive research and international case examples This approach ensures global relevance Instructors will find the book s wealth of examples tables figures and references invaluable for class preparation The abundance of statistical data facilitates students comprehension of evolutionary forces and their impact on competition and performance The structured pedagogy streamlines teaching and the addition of PowerPoint slides further enhances its educational utility In summary Advanced Strategic Management is a comprehensive globally aware and practically oriented resource that bridges the gap between theory and application Its innovative approach and rich content make it an indispensable tool for students educators and practitioners navigating the complexities of modern strategic management

Reports of the Tax Court of the United States United States. Tax Court,1928 **Ecological Footprint of the Modern Economy and the Ways to Reduce It** Bruno S. Sergi,Elena G. Popkova,Anna A. Ostrovskaya,Alexander A. Chursin,Yulia V. Ragulina,2024-02-26 This book is devoted to the systems rethinking of the role of the leading digital technologies and circular innovations to reduce the environmental footprint of the modern economy The target audience of this book consists of scientists who explore environmental economics energy economics and sustainable development In this book they will find a consistent take on the impact of the economy on the environment from the perspective of a new scientific concept the environmental footprint of the economy described through the lens of the UN SDGs This book is also useful for public agencies of energy and environmental economics and environmentally responsible enterprises In this book they will find applied recommendations on improving the efficiency of the use of high technologies and responsible innovations to reduce the environmental footprint of the modern economy The book provides numerous real world examples case studies and recommendations on unlocking the environmental potential of high technologies Big Data Ubiquitous Computing UC Robotics Artificial Intelligence AI and the Internet of Things IoT and responsible innovations ESG investments environmental taxation green jobs which allow reaching net zero emission and building a carbon neutral circular economy The interest in this book is also attributable to the fact that it takes into account the specifics of developed and less developed countries The book puts more focus on the real life and case experience of Central Asia and the Eurasian Economic Union EAEU **Competitiveness of the U.S. Automobile Industry** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Economic Stabilization,1985

The Raging 2020s Alec Ross,2025-09-23 In the face of unprecedented global change New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government citizens and business in The Raging 2020s For 150 years there has been a contract Companies hold the power to shape our daily lives The state holds the

power to make them fall in line And the people hold the power to choose their leaders But now this balance has shaken loose As the market consolidates the lines between big business and the halls of Congress have become razor thin Private companies have become as powerful as countries As Walter Isaacson said about Alec Ross s first book The Industries of the Future The future is already hitting us and Ross shows how it can be exciting rather than frightening Through interviews with the world s most influential thinkers and stories of corporate activism and malfeasance government failure and renewal and innovative economic and political models Ross proposes a new social contract one that resets the equilibrium between corporations the governing and the governed **Monthly Catalog of United States Government Publications** ,1991
