

Hello,

My name is Abaho Katabarwa, and I'm a Stanford senior majoring in Computer Science with a concentration in Artificial Intelligence and a passion for mobile development. I've spent the last 8 months teaching myself both Android and iOS, and I've developed a lot of simple applications on each platform. This coming week, I'm going to release my first ready-to-distribute iOS application (which I hope to share with you).

Mobile development is not all I do. Think of it as my outlet for my desire to make beautiful and useful products that actually make people's lives better. When I'm not coding or getting excited about coding, you can find me running around campus as fast as I can since I'm a competitive distance runner. If I'm not doing that, you may find me playing guitar and singing with my funk band.

I've been using Venmo for over a year now, and everytime I use it, I get this overwhelming sense of "Wow, that was easy and amazing." I wouldn't want to imagine my life without Venmo. I really believe that Venmo has broken into a market that is going to be the way of the future. What I'm trying to say is that I believe in Venmo, and I'm incredibly excited about the opportunity to be apart of that future.
