and SolarCity who sold one of his Internet companies PayPal for 1.5 billion. Ashlee Vance captures the full spectacle and arc of the genius's life and work from his tumultuous upbringing in South Africa and flight to the United States to his dramatic technical innovations and entrepreneurial pursuits. Vance uses Musk's story to explore one of the pressing questions of our age: can the nation of inventors and creators who led the modern world for a century still compete in an age of fierce global competition? He argues that Musk, one of the most unusual and striking figures in American business history, is a contemporary visionary amalgam of legendary inventors and industrialists including Thomas Edison, Henry Ford, Howard Hughes, and Steve Jobs. More than any other entrepreneur today, Musk has dedicated his energies and his own vast fortune to inventing a future that is as rich and far-reaching as the visionaries of the golden age of science fiction fantasy. Thorough and insightful, Elon Musk brings to life a technology industry that is rapidly and dramatically changing by examining the life of one of its most powerful and influential titans.

Valley of Heart's Delight Anne Marie Todd, 2022-10-25 This agricultural history explores the transformation of the Santa Clara Valley over the past one hundred years from America's largest fruit producing region into the technology capital of the world. In the latter half of the twentieth century, the region's focus shifted from fruits such as apricots and prunes to computers. Both personal and public rhetoric reveals how a sense of place emerges and changes in an evolving agricultural community like the Santa Clara Valley. Through extensive archival research and interviews, Anne Marie Todd explores the concepts of place and placelessness, arguing that place is more than a physical location and that exploring a community's sense of place can help us to map how individuals experience their natural surroundings and their sense of responsibility towards the local environment. Todd extends the concept of sense of place to describe Silicon Valley as a non-place where weakened or disrupted attachment to place threatens the environment and community. The story of the Santa Clara Valley is an American story of the development of agricultural lands and the transformation of rural regions.

Growth Engines Can Akdeniz, 2014-11-04 Although popular culture certainly has its favorites in terms of rockstar companies, some of the rising giants within the business world don't always get the credit or airtime they deserve. There are a number of recent growth engine companies that have challenged conventional paths to success and forged their own destinies through unique and innovative techniques that have resulted in huge success within a shockingly short time. This book pulls back the curtain on some of today's rising business stars and reveals what essential tactics they've used to reach such impressive heights. Case studies included: Lululemon, Alibaba, Keurig, Green Mountain, Tesla Motors, Fuhu. This book includes a bonus material: How Google Did It, a best-selling book.

Decentralization Craig Calcaterra, Wulf Kaal, 2021-03-08 Entrepreneurs as well as seasoned business leaders are struggling to innovate and stay ahead of change in the age of decentralization. What separates the companies that get disrupted from the ones that thrive when faced with decentralization? What tactics can be deployed to decentralize large monolithic organizations? Drawing on their experience as researchers and tech entrepreneurs, Professors Calcaterra and Kaal show how to learn to embrace the

change that comes with decentralization Evolve technology communication and culture as the business encounters decentralization Use best practices to maintain profitability in the emerging environments of decentralization across industries Combine responsibility with velocity to leverage the advantages of decentralization for the common good The book examines the core infrastructure elements that are needed before the first genuinely decentralized transaction can happen including a legal environment underwriting a truly decentralized blockchain that can overcome the blockchain trilemma decentralization scaling security and efficient governance of blockchains Decentralization is essential reading for businesses seeking to win in an increasingly decentralized world where adaptation speed is the competitive advantage that matters most
