Jakob Summer,2023-04-05 Master s Thesis from the year 2021 in the subject Business economics General grade 1 00 Management Center Innsbruck Management Center Innsbruck language English abstract Due to technological progress smart speakers have entered the market in recent years and have already been adopted by certain parts of the population Although several studies have tried to explain the crucial factors for smart speaker adoption there is still no common understanding and there are significant gaps in the literature analysing the adoption of smart speakers at their current technical level in specific countries Therefore this study aims to identify factors influencing the intention to use smart speakers in Germany By reviewing the literature on innovation acceptance with an emphasis upon adoption studies of voice controlled technologies the research model of this thesis was developed The hypothesized effects of the twelve constructs in the model were tested using an online survey with questionnaires as data collection instruments among 233 German non adopters The study found that certain constructs specifically enjoyment privacy concerns usefulness and social influence were significant predictors of intention to use System quality and smart speaker complementarity with apps and services additionally emerged as predictors of perceived usefulness Results suggest that companies should pay particular attention to these factors when marketing and further developing smart speakers The factors identified might further influence the acceptance of similar IT products *Tornado Tamer* Terri Fields,2016-02-10 In this adaptation of The Emperor s New

Clothes Mayor Peacock declares he will hire a tornado tamer to protect the town After a long search Travis arrives to fill the position and this weasel has a plan He will build a very special transparent cover to protect the town Travis magical cover is so transparent that only those smart enough and special enough can even see it Mouse is doubtful but his questions are brushed off Months later the cover has been hung and Travis has been paid a hefty sum but a tornado is in the distance and the town is in its path Will the magic cover protect the town Home Informatics and Telematics: ICT for the Next Billion

Emerging Technologies to Enhance Learning among Slow Learners Dr. R. Gnanadevan and Dr. R. Babu, 2019-04-08 Information technology IT has become a vital and integral part of every business plan Technology has the ability to enhance relationships between teachers and students When teachers effectively integrate technology into subject areas teachers grow into roles of adviser content expert and coach Technology helps make teaching and learning more meaningful and fun From multi national corporations who maintain mainframe systems and databases to small businesses that own a single computer IT plays a role The reasons for the omnipresent use of computer technology in business can best be determined by looking at how it is being used across the business world

Privacy Preserving Data

Management Sebastian Linsner, 2025-06-02 Users face many situations in which they have to disclose their data to others. In many cases they are not properly informed about the usage of their data or the consequences of data disclosure. This book investigates how users can be supported by researching three core aspects. Firstly, problems and risks that lead to unintended data disclosure or arise from it have to be identified. Secondly, measures are investigated that developers can apply to mitigate these risks and meet the needs of the users. Finally, the developed solutions have to be adopted into practice. Strategies to bring security and privacy enhancing technologies to use are essential because a tool that is not used cannot protect anyone. The investigated scenarios are twofold. Firstly, business to business B2B collaborations, especially highlighting the perspective of owners of small and medium enterprises (SMEs) who are forced to provide data for business processes. Secondly, scenarios of everyday usage for private users that require the disclosure of data are investigated.
