Reading Comprehension

Compare and Contrast

When we compare two things, we tell how they are alike.

When we contrast two things, we tell how they are different.

Owls and Bats	
There are many ways that owls and bats are similar. Owls and bats are both nocturnal. This means that they sleep during the day and they are awake during the night. At night they hunt for their food. Owls and bats eat some of the same types of food such as insect and small rodents. While owls and bats can both fly only one is considered to be a type of bird. Owls are birds and bats are not. Both are mammals that can fly. Unlike owls, bats have fur instead of feathers. Another difference between birds and owls are their babies. Owls hatch from eggs but bats are born alive. Can you think of any other difference?	 

Use the Venn diagram and record the similarities and differences between the owl and bat that are in the passage.

First Year Teacher's Survival Guide Julia G. Thompson, 2009-05-18 The best selling First Year Teacher's Survival Kit gives new teachers a wide variety of tested strategies activities and tools for creating a positive and dynamic learning environment while meeting the challenges of each school day Packed with valuable tips the book helps new teachers with everything from becoming effective team players and connecting with students to handling behavior problems and working within diverse classrooms The new edition is fully revised and updated to cover changes in the K 12 classroom over the past five years Updates to the second edition include New ways teachers can meet the professional development requirements of the No Child Left Behind Act Entirely new section on helping struggling readers to address the declining literacy rate among today's students Expanded coverage of helpful technology solutions for the classroom Expanded information on teaching English Language Learners Greater coverage of the issues challenges facing elementary teachers More emphasis on how to reach and teach students of poverty Updated study techniques that have proven successful with at risk students Tips on working effectively within a non traditional school year schedule The latest strategies for using graphic organizers More emphasis on setting goals to help students to succeed More information on intervening with students who are capable but choose not to work Updated information on teachers rights and responsibilities regarding discipline issues Fully revised Resources appendix including the latest educational Web sites and software

Multiple Perspectives on Difficulties in Learning Literacy and Numeracy Claire Wyatt-Smith, John Elkins, Stephanie Gunn, 2010-10-28 There are many approaches to researching the difficulties in learning that students experience in the key areas of literacy and numeracy This book seeks to advance understanding of these difficulties and the interventions that have been used to improve outcomes The book addresses the sometimes complementary and sometimes contradictory results and generates new approaches to understanding and serving students with difficulties in literacy and numeracy The book represents a departure from conventional wisdom as most scholars and graduate students draw upon ideas from only one of the three domains focal in the book and usually from one single or dominant theoretical frame Typically readers will affiliate with reading education mathematics education or learning disabilities and belong to one of the corresponding professional associations such as IRA NCTM or CLD This book's scope will open a scholarly forum for engaging readers with a familiarity with one of these domains while providing insight into the others on offer in the book

Khaled Hosseini Ayse Gökce, 2011 Seminar paper from the year 2011 in the subject English Pedagogy Didactics Literature Studies grade 1 7 Friedrich Alexander University Erlangen Nuremberg Lehrstuhl Fremdsprachendidaktik course Seminar Young Adult Fiction language English abstract Teaching English as a foreign language means a great challenge which would certainly be answered by all English teachers in the affirmative Today every school in Germany offers English as school subject even the primary schools Consequently it must be put great emphasis on teaching it accurately by taking into consideration any aspect of English language acquisition

when learning it for example the acquisition of a distinctive vocabulary the ability to use grammar rules correctly the ability to spell correctly the ability to understand what is been said when native speakers talk in English which we call listening comprehension Another very important part of learning English as a foreign language is undisputedly reading comprehension The ability to read out correctly to understand what is been read and to be able to work with a text effectively is not only a competence that should be concentrated on in the foreign language but also in the mother tongue The PISA Study is a perfect proof of this which will be mentioned later on In this paper I will try to accentuate the importance and significance of reading in the English class In order to illustrate this I will introduce the novel A Thousand Splendid Suns by Khaled Hosseini an American author and doctor with Afghan origins and use it for the elaboration of the importance of reading activities in the English class Initially I will focus on the didactic analysis which includes the reference to the syllabus The syllabus is of course the signpost in terms of guidelines when planning the lessons choosing age appropriate media and methods What role does reading play in this context What is said in the syllabus when it comes to reading The next

Teaching

Comprehension Cathy Collins Block, 2004 Teaching Comprehension The Comprehension Process Approach is unparalleled to any other text in its coverage of how to teach comprehension to students of all ages Renowned scholar Cathy Collins Block takes on the challenging task of providing what every student needs to know about teaching comprehension in a concise manner This text is packed with innovative lessons and approaches based on the latest developments in research based practices Designed to suit one's needs each chapter ends with a complete lesson plan that can be implemented in classrooms with a wide range of student reading ability levels Features Presents the Thinking Process Approach to comprehension instruction through highly effective research based lessons Provides in depth treatment of literal comprehension processes inference imagery metacognition and non fictional texts The text teaches higher level comprehension processes based on what students need to fully understand more than ten distinct genres Chs 5-12 Addresses the comprehension needs of Generation Y students the roles and responsibilities of teachers and students and curriculum and instructional activities featuring specific actions that teachers can take to capture the attention of a new generation of students Describes new methods of empowering students throughout the text which advance their own comprehension abilities An entire chapter is dedicated to new assessment tools that diagnose and prescribe student's comprehension needs and accomplishments Ch 10 These assessment tools have been successfully tested in more than 2 000 classrooms throughout the United States and Canada Heavy emphasis throughout the text on how to use technology to improve comprehension instruction to meet the needs of the 21st century classroom Rather than merely listing Web site addresses the text integrates discussion of strategies for using technology into the text Includes selections of current children's and adolescent literature as well as many examples of non fiction selections covering grades K-12 Covers comprehension needs at each stage of students intellectual development Contains vivid graphics that thematically recur within chapters and easily guide students reading throughout

the text and demonstrate how to use graphics effectively to teach comprehension
