*Today's Mathematics, Activities and Instructional Ideas* James W. Heddens, William R. Speer, 2000-08-31 This classic allows readers to easily build a valuable set of ideas and reference materials for actual classroom use Designed to aid the teacher in understanding mathematical concepts and relationships the authors reflect recent recommendations from the National Council of Teachers of Mathematics Standards 2000

**Mathematics Activities for Elementary School Teachers** Dan Dolan, Jim Williamson, Mari Muri, 1980 This revised edition features activities that can be used to develop reinforce and or apply mathematical concepts Activities can also be adapted for use with elementary students at a later time They are closely keyed to the text and are ordered by the topics and skills within each chapter References to these activities are in the margin of the main text

**Today's Mathematics, Concepts and Classroom Methods, and Instructional Activities** James W. Heddens, William R. Speer, 2005-04-11 From principles to practice all the tools you need to be an effective mathematics teacher Now combining theory methods and instructional activities in one convenient volume Heddens and Speer's Eleventh Edition of Today's Mathematics provides a valuable set of ideas and reference materials for actual classroom use The text will help you thoroughly understand what you need to teach to meet today's NCTM standards and how to present it in the most effective way possible This edition features a fully integrated CD of teacher resources With Today's Mathematics 11e you can Learn about contemporary philosophies and psychologies of learning teaching and assessing mathematics Explore the nature and scope of a beginning mathematics program for the primary grades Master the content strands commonly found in pre K Grade 8 mathematics curricula Examine the roles of problem solving decision making and communication in mathematics Discover effective ways to use tools such as calculators computers and technology in the classroom New virtual manipulatives CD The enclosed CD features

a library of interactive web based manipulatives for mathematics instruction The CD also includes an overview of eight content strands a checklist of mathematical concepts organized by concept clusters several thematic mathematics activities and a vignette from the NCTM Also available from Wiley Jossey Bass The Math Teacher s Book of Lists 2nd Edition Judith A Muschla Gary Robert Muschla ISBN 0 7879 7398 X      International Guide to Student Achievement John Hattie, Eric M. Anderman, 2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs      Teaching Today's Mathematics in the Middle Grades Art Johnson, Kit Norris, 2006 Teaching Today s Mathematics in the Middle Grades provides current and future middle school teachers with the mathematics content essential concepts methodology activities and resources to both learn and teach mathematics in grades 5 to 8 The authors focus exclusively on the middle school learner and the middle school mathematics curriculum Although each chapter discusses foundational mathematics concepts from earlier grades and previews topics that will follow the middle grades the emphasis is on the middle school This selective focus allows for proper development of critical topics in the middle school such as proportionality algebraic thinking and the integral role of manipulatives Assessment practices and problem solving are also emphasized from the viewpoint of effective practices for middle school students Unique Features React and Reflect features prompt classroom discussions by asking the reader to think independently regarding a statement issue or concern Try This features ask the reader to solve a problem first or extend the current discussion by working on an extension of a problem By completing the problem first teachers are putting themselves in the place of their students helping the teacher discover first hand common misconceptions Numerous exercises and activities appear at the end of each chapter to reinforce student understanding of various topics and ensure mastery of the mathematics content The NCTM Principles and Standards are emphasized throughout the book beginning with a discussion in Chapter 1 Each of the content chapters 6 11 opens with the relevant NCTM content standards for that chapter In addition marginal icons highlight areas within the text in which the NCTM process standards are discussed

Reviewers rave From the content organization and approach it is evident that the authors have years of teaching experience This gives the text authority Marina Krause California State University Long BeachThe authors do an excellent job of presenting in sequential order essential concepts methodology activities and technological resources essential to assist the beginning math teacher in preparing to teach in the middle school program Gerald Jarmon North Carolina Central University
