In the field of psychology there are many books which are of interest to the students of psychology. However, I had felt a need for a book which offers a comprehensive account of topics related to the introduction to psychology and behavioural science to the best possible extent which emphasises on easy and understandable language for undergraduate students. Working in Malaysia and being a part of the health and medical education system here, I was inspired by the support and encouragement prevailing in the atmosphere which was conducive for expressing my ideas in simple form of this book for the benefits of our students. I considered it apt to use my knowledge to meet this dire need which led to the penning of this book. It will hopefully serve as a very useful aid to students in their curriculum. The students will benefit from the information covered in this book which articulates thoughts and ideas related to the subject matter. This effort is aimed at helping the students gain knowledge effectively.

Transforming Wisdom Felicity Kelcourse, K. Brynolf Lyon, 2015-10-09. *Transforming Wisdom* offers an extensive multidisciplinary introduction to pastoral psychotherapy from some of the most respected practitioners in the field. With special attention to theological perspectives on the practice of psychotherapy, this collection of essays will be useful to students seeking an orientation to the art and science of pastoral psychotherapy as well as to seasoned professionals looking to refresh and renew their practice. As the subtitle *Pastoral Psychotherapy in Theological Perspective* suggests, this book is intended to represent the field of pastoral psychotherapy as a mental health discipline that maintains intentional dialogue with its theological roots. Even as pastoral psychotherapy has developed from the ancient notion of the cure of souls to the current search for a psychology of happiness, therapists grounded in faith communities seek a practice that is respectful of all persons, mindful of the deep wisdom that emanates from the true self or soul. While many contributors write from a psychoanalytic or psychodynamic perspective grounded in Christian theological idioms, diverse theoretical perspectives including Emotionally Focused Couples Therapy, Narrative Therapy, Buddhist Mindfulness, and Jungian understanding of individuation are represented.
