The Next Management - The future of management education

by Peter Paschek

Peter Drucker Forum Educating Managers For The Future

Maureen E. Devlin, Joel W. Meyerson

Peter Drucker Forum Educating Managers For The Future:

Executive Education after the Pandemic Santiago Iñiguez, Peter Lorange, 2021-11-29 Business education and executive development has been one of the most fascinating industries in the world and the fastest growing segment of higher education over the past decades. Today it is experiencing change on a scale unprecedented since the foundation of the first business schools in the early 20th Century, both due to changes in the corporate environment and also due to the impact of the COVID 19 pandemic across all industries. In this context, how do you create world class educational and training institutions that can cope with those challenges and be rigorous, vocationally relevant and suited to the corporate growing needs in this new fluid world? And how do you combine the very best of traditional academic values with new learning technologies to create an educational model that is fit to compete in the global economy threatened today by populism, nationalism and economic turmoil? Yet as daunting as it is, some institutions have already made significant progress in the journey. In this book, Santiago Iñiguez de Onzo, President of IE University and Peter Lorange, former President of IMD, bring together contributions from leading figures from some of the world's major universities. They share their experiences in addressing some of the challenges that the industry faces today, such as diversity and inclusion, employability, the role of AI and the advent of innovative new platforms. Packed with case studies of successful initiatives in business education and executive training, this is a truly visionary book. Authors anticipate future trends and share their in-depth knowledge of what it takes to build world class educational providers and their vision of higher education in the future. **Responsible**

Management Education Principles for Responsible Management Education, 2021-12-24 The ebook is fully Open Access. Written by many of the key influencers at the Principles for Responsible Management Education (PRME), the book focuses on advancing sustainable development into education research and partnerships at higher education institutions and specifically at business schools, with the purpose of educating responsible leaders for today and tomorrow. The book serves as a concrete source of inspiration for universities and other stakeholders in higher education on structures, processes and content for how to advance responsible management education and sustainable development. It articulates the importance of key themes connected with climate change, gender equality, anti-corruption, business for peace, anti-poverty and other topics that are related to the Sustainable Development Goals (SDGs). The book emphasizes the significance of local-global interaction, drawing on local action at management schools in combination with global knowledge exchange across the PRME community. In addition, the book clearly demonstrates the background, key milestones and successful achievements of PRME as a global movement by management schools in collaboration with a broader community of higher education professionals. It exemplifies action in various local geographies in PRME. Chapters: PRME Working Groups and the PRME Champions work to advance responsible management education. The authors of the book are all globally experienced deans, professors, educators, executives and students with a global outlook who are united to advance responsible management education locally and

globally The book will be invaluable reading for university leaders educators business school deans and students wanting to understand and embed responsible management education approaches across their institutions and curricula The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Knowledge Management for the Information Professional
