Toward a New Socialism offers a critical analysis of capitalism's failings and the imminent need for socialism as an alternative form of government. This book demonstrates that capitalism is destructive and limiting to the many ongoing campaigns to increase freedom, equality, and security. Dr. Richard Schmitt joins with Dr. Anatole Anton to compile a volume of essays exploring the benefits and consequences of a socialist system as an avenue of increased human solidarity and ethical principle. The essays offer a new definition of socialism by investigating the theories and principles of socialism, its influence on social institutions, and its role in work dynamics. Raising important and unavoidable questions for contemporary society, *Toward a New Socialism* is a vital resource for scholars of political theory and the globalization movement as well as a necessary read for every citizen under capitalism.

Intercultural Communication James W. Neuliep, 2012
In this fully updated Fifth Edition of *Intercultural Communication*, author James W. Neuliep provides a clear, contextual, circular model for examining communication within cultural, micro-cultural, environmental, socio-relational, perceptual contexts, and verbal and nonverbal codes. The text begins with the broadest context, the cultural component of the model, and progresses chapter by chapter through each component of the model. The later chapters then apply the model to the development and maintenance of intercultural relationships, the management of intercultural conflict, intercultural management, intercultural adaptation, culture shock, and intercultural competence.

 Bible Interpretation and the African Culture David J. Ndegwah, 2020-01-15
This book can be summarized in one sentence: that culture plays a determinant role in the way people perceive, interpret, and therefore respond to reality around them. Ideas, events, people, and literature, including sacred literature. Thus, when people encounter new reality, they perceive and conceptualize it in accordance with their worldview, which is shaped by their culture that is modeled to suit various geographical locations. In order to understand why people around the world behave and act as they do, they choose certain words in what they say and do certain things rather than others. It is important to understand and appreciate this fact. Failure to do so would make it very difficult to engage in any dealings with them, secular or religious, like doing business or evangelization. This is what happened to the Pokot people, whose worldview is predominantly communitarian, and yet they were introduced to hermeneutics that are predominantly individualistic, which is at loggerheads.

with their communal aspirations The manifestation of this reality is the interpretation of the Good Shepherd parable in the Gospel of John which the Pokot have understood and contextualized in line with their worldview against the intentions goals and disposition of their evangelizers

The Australian People James Jupp,2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation

The Globalization of God Dara Molloy,2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military

invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism
