America's military experience over the past century Published in collaboration with the Cantigny First Division Foundation and the Cantigny Military History Series edited by Paul H Herbert *Leadership In Conflict 1914-1918* Matthew Hughes, Matthew Seligmann, 1990-12-31 The First World War was a conflict in which personality and character mattered Its course and outcome were decided by determined individuals who had to make momentous decisions in very trying circumstances As battles raged on land sea and air across Europe Africa and Asia the Generals and politicians tried to steer a course to victory It was never easy and they often disagreed on the best strategy Yet men's lives depended on the outcome This collection of authoritative essays examines these disagreements portraying the decision making process on both sides in the Great War The personalities involved are now household names Haig Foch Lloyd George Woodrow Wilson and the German Kaiser William II **The All-Americans at War** James J. Cooke, 1999-04-30 This is the first study to analyze the content training and performance of a World War I draft division from its formation onward The 82nd division consisted heavily of non English speaking European immigrants and conscripts fresh from farming towns in Tennessee and North Carolina Despite these apparent obstacles it would evolve into an effective combat unit on the front lines of St Mihiel and the Meuse Argonne These All Americans would prove that they could fight and accomplish several difficult missions in the Great War From its birth at Camp Gordon Georgia to the battlefields of the Western Front the 82nd division became a highly successful combat unit through good leadership and hard work After initial training in France by both British and French forces the 82nd entered the trenches to face the Germans Given a difficult mission during the St Mihiel offensive the diverse division performed well and during the Meuse Argonne battle it achieved its objectives despite heavy casualties Despite an early lack of preparation this force would be a true American success story **Mississippi Libraries** , 1997 *America's School for War* Peter J. Schifferle, 2010-04-05 When the United States entered World War II it took more than industrial might to transform its tiny army smaller than even Portugal's into an overseas fighting force of more than eight and a half million Peter Schifferle contends that the determination of American army officers to be prepared for the next big war was an essential component in America's ultimate triumph over its adversaries Crucial to that preparation were the army schools at Fort Leavenworth Interwar Army officers haunted by the bloodshed of World War I's Meuse Argonne Offensive fully expected to return to Europe to conclude the unfinished business of that conflict and they prepared well Schifferle examines for the first time precisely how they accomplished this through a close and illuminating look at the students faculty curriculum and essential methods of instruction at Fort Leavenworth He describes how the interwar officer corps there translated the experiences of World War I into effective doctrine engaged in intellectual debate on professional issues conducted experiments to determine the viability of new concepts and used military professional education courses to substitute for the experience of commanding properly organized and resourced units Schifferle highlights essential elements of war preparation that only the Fort Leavenworth education could provide including intensive instruction in general staff

procedures hands on experience with the principles and techniques of combined arms and the handling of large division sized formations in combat This readied army officers for an emerging new era of global warfare and enabled them to develop the leadership decision making they would need to be successful on the battlefield But Schifferle offers more than a recitation of curriculum development through the skillful interweaving of personal stories about both school experiences and combat operations collectively recounting the human and professional development of the officer corps from 1918 to 1945 Well crafted and insightful Schifferle s meticulously researched study shows how and why the Fort Leavenworth experience was instrumental in producing that impressive contingent of military officers who led the U S Army to final victory in World War II By the end of the book the attentive reader will also fully comprehend why the military professionals at Fort Leavenworth have come to think of it as the Intellectual Center of the Army *World War I* Spencer C.
