

Perception

The ability to detect and interpret information about the world.

Overview

- The five basic senses of sight, hearing, touch, taste and smell.
- Humans have a large number of senses beyond the five basic senses such as proprioception, a sense of body position, and thermoception, a sense of temperature.
- People have high level social senses based on the other senses. For example, the ability to read emotion in faces.
- People commonly feel that intuition is a sense but it is also explained as a subconscious thought process.
- Attribution and the process of using the senses to identify cause and effect.
- Perception is influenced by factors such as attention, expectations, context, emotion, culture and noise.
