Monstrous Bodies/political Monstrosities In Early Modern Europe:

Monstrous Bodies/political Monstrosities in Early Modern Europe Laura Lunger Knoppers, Joan B. Landes, 2004
Multi disciplinary in approach cross European in scope this volume explores links between the political the monstrous in Europe from the Renaissance to the 19th century These essays stress the continual reinvention polemical applications of the monstrous Holy Monsters, Sacred Grotesques Michael E. Heyes, 2018-08-10 Holy Monsters Sacred Grotesques examines the intersection of religion and monstrosity in a variety of different time periods in the hopes of addressing two gaps in scholarship within the field of monster studies The first part of the volume running from the medieval to the Early Modern period focuses upon the view of the monster through non majority voices and accounts from those who were themselves branded as monsters Overlapping partially with the Early Modern and proceeding to the present day the contributions of the second part of the volume attempt to problematize the dichotomy of secular religious through a close look at the monsters this period has wrought **Feminist Geopolitics** Deborah P. Dixon, 2016-04-15 What can unfold from an engagement of feminist issues concerns and practices with the geopolitical How does feminism allow for a reconfiguration of how these two elements the geo and the political are understood and related What kinds of objects can be located and put into motion What kinds of relations can be drawn between these What kinds of practice become valued And what is glossed or rendered absent in the process In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space Feminist Geopolitics feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence **The Civil Wars After 1660** Matthew Neufeld, 2013 Drawing upon the interdisciplinary field of social memory studies this book opens up new vistas on the historical and political culture of early modern England This book examines the conflicting ways in which the civil wars and Interregnum were remembered constructed and represented in seventeenth and eighteenth century England It argues that during the late Stuart period public remembering of the English civil wars and Interregnum was not concerned with re fighting the old struggle but rather with commending and justifying or contesting and attacking the Restoration settlements After the return of King Charles II the political nation had to address the question of remembering and forgetting the recent conflict The answer was to construct a polity grounded on remembering and scapegoating puritan politics and piety The proscription of the puritan impulse enacted by the Restoration settlements was supported by a public memory of the 1640s

and 1650s which was used to show that Dissenters could not and should not be trusted with power Drawing upon the interdisciplinary field of social memory studies this book offers a new perspective on the historical and political cultures of early modern England and will be of significant interest to social cultural and political historians aswell as scholars working in memory studies Matthew Neufeld is Lecturer in early modern British history at the University of Saskatchewan Canada

For the Sake of Learning, 2016-06-27 In this tribute to Anthony Grafton a preeminent historian of early modern European intellectual and textual culture and of classical scholarship fifty eight contributors present new research across the many areas in which Grafton has been active The articles span topics from late antiquity to the 20th century from Europe to North American and a full spectrum of fields of learning including art history the history of science classics Jewish and oriental studies church history and theology English and German literature political social and book history Major themes include the communities and dynamics of the Republic of Letters the reception of classical texts libraries and book culture the tools genres and methods of learning Contributors are James S Amelang Ann Blair Christopher S Celenza Stuart Clark Thomas Dandeleit Lorraine Daston Mordechai Feingold Paula Findlen Anja Silvia Goeing Robert Goulding Alastair Hamilton James Hankins Nicholas Hardy Kristine Louise Haugen Bruce Janacek Lisa Jardine Henk Jan de Jonge Diane Greco Josefowicz Roland Kany Thomas DaCosta Kaufmann Arthur Kiron Jill Kraye Urs B Leu Scott Mandelbrote Suzanne Marchand Margaret Meserve Paul Michel Peter N Miller Glenn W Most Martin Mulsow Paul Nelles William R Newman C Philipp E Nothaft Laurie Nussdorfer J rgen Oelkers Brian W Ogilvie Nicholas Popper Virginia Reinburg Daniel Rosenberg Sarah Gwyneth Ross Ingrid D Rowland David Ruderman Hester Schadee Wilhelm Schmidt Biggemann Richard Serjeantson Salvatore Settis Jonathan Sheehan William H Sherman Nancy Siraisi Jacob Soll Peter Stallybrass Daniel Stolzenberg N M Swerdlow Dirk van Miert Kasper van Ommen Arnoud Visser Joanna Weinberg and Helmut Zedelmaier Literatures of Exile in the English Revolution and its Aftermath, 1640-1690 a foreword by Lisa Jardine, 2016-12-05 Original and thought provoking this collection sheds new light on an important yet understudied feature of seventeenth century England s political and cultural landscape exile Through an essentially literary lens exile is examined both as physical departure from England to France Germany the Low Countries and America and as inner mental withdrawal In the process a strikingly wide variety of contemporary sources comes under scrutiny including letters diaries plays treatises translations and poetry The extent to which the richness and disparateness of these modes of writing militates against or constructs a recognisable rhetoric of exile is one of the book s overriding themes Also under consideration is the degree to which exilic writing in this period is intended for public consumption a product of private reflection or characterised by a coalescence of the two Importantly this volume extends the chronological range of the English Revolution beyond 1660 by demonstrating that exile during the Restoration formed a meaningful continuum with displacement during the civil wars of the mid century This in depth and overdue study of prominent and hitherto obscure exiles conspicuously diverse in political and religious allegiance yet

inextricably bound by the shared experience of displacement will be of interest to scholars in a range of disciplines

Rethinking Medical Humanities Rinaldo F. Canalis, Massimo Ciavolella, Valeria Finucci, 2022-12-19 Medical Humanities may be broadly conceptualized as a discipline wherein medicine and its specialties intersect with those of the humanities and social sciences As such it is a hybrid area of study where the impact of disease and healing science on culture is assessed and expressed in the particular language of the disciplines concerned with the human experience However as much as at first sight this definition appears to be clear it does not reflect how the interaction of medicine with the humanities has evolved to become a separate field of study In this publication we have explored through the analysis of a group of selected multidisciplinary essays the dynamics of this process The essays predominantly address the interaction of literature philosophy art art history ethics and education with medicine and its specialties from the classical period to the present Particular attention has been given to the Medieval Early Modern and Enlightenment periods To avoid a rigid compartmentalization of the book based on individual fields of study we opted for a fluid division into multidisciplinary sections reflective of the complex interactions of the included works with medicine *Beholding Disability in Renaissance England* Allison P. Hobgood, 2024-11-04 Human variation has always existed though it has been conceived of and responded to variably *Beholding Disability in Renaissance England* interprets sixteenth and seventeenth century literature to explore the fraught distinctiveness of human bodyminds and the deliberate ways they were constructed in early modernity as able and not Hobgood examines early modern disability ableism and disability gain purposefully employing these contemporary concepts to make clear how disability has historically been disavowed and avowed too Thus this book models how modern ideas and terms make the weight of the past more visible as it marks the present and cultivates dialogue in which early modern and contemporary theoretical models are mutually informative *Beholding Disability* also uncovers crucial counterdiscourses circulating in the English Renaissance that opposed cultural fantasies of ability and had a keen sensibility toward non normative embodiments Hobgood reads impairments as varied as epilepsy stuttering disfigurement deafness chronic pain blindness and castration in order to understand not just powerful fictions of ability present during the Renaissance but also the somewhat paradoxical surprising ways these ableist ideals provided creative fodder for many Renaissance writers and thinkers Ultimately *Beholding Disability* asks us to reconsider what we think we know about being human both in early modernity and today **A Cultural History of Peace in the Renaissance** Isabella Lazzarini, 2022-02-24 *A Cultural History of Peace* presents an authoritative survey from ancient times to the present The set of six volumes covers over 2500 years of history charting the evolving nature and role of peace throughout history This volume *A Cultural History of Peace in the Renaissance* explores peace in the period from 1450 to 1648 As with all the volumes in the illustrated *Cultural History of Peace* set this volume presents essays on the meaning of peace peace movements maintaining peace peace in relation to gender religion and war and representations of peace *A Cultural History*

of Peace in the Renaissance is the most authoritative and comprehensive survey available on peace in the early modern era

Catastrophism Sasha Lilley, David McNally, Eddie Yuen, James Davis, 2012-10-05 We live in catastrophic times The world is reeling from the deepest economic crisis since the Great Depression with the threat of further meltdowns ever looming Global warming and myriad dire ecological disasters worsen with little if any action to halt them their effects rippling across the planet in the shape of almost biblical floods fires droughts and hurricanes Governments warn that there is no alternative to the bitter medicine they prescribe or risk devastating financial or social collapse The right whether religious or secular views the present as catastrophic and wants to turn the clock back The left fears for the worst but hopes some good will emerge from the rubble Visions of the apocalypse and predictions of impending doom abound Across the political spectrum a culture of fear reigns Catastrophism explores the politics of apocalypse on the left and right in the environmental movement and examines why the lens of catastrophe can distort our understanding of the dynamics at the heart of these numerous disasters and fatally impede our ability to transform the world Lilley McNally Yuen and Davis probe the reasons why catastrophic thinking is so prevalent and challenge the belief that it is only out of the ashes that a better society may be born The authors argue that those who care

about social justice and the environment should jettison doomsaying even as it relates to indisputably apocalyptic climate change Far from calling people to arms they suggest catastrophic fear often results in passivity and paralysis and at worst reactionary politics

[The Oxford Handbook of Montaigne](#) Philippe Desan, 2016-10-14 Montaigne s Essays resemble a patchwork of personal reflections but they engage with questions that animate the human mind and tend to a single goal to live better in the present and to prepare for death For this reason Montaigne s thought and writings have been a subject of enduring interest across disciplines This Handbook brings together essays by prominent scholars that examine Montaigne s literary philosophical and political contributions and assess his

legacy and relevance today in a global perspective It presents Montaigne s Essays not only in their historical context but also as a starting point for discussing issues that concern us today **Foucault and Law** Ben Golder,2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault s work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault s work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio political forms The World's First Full Press Freedom Ulrik Langen,Frederik Stjernfelt,2022-05-09 The book charts an extraordinary period in Danish history the Press Freedom Period of 1770 73 in which King Christian 7 s physician J F Struensee introduced a series of radical enlightenment reforms beginning with the total abolishment of censorship The book investigates the sudden avalanche of pamphlets and debates initiating the modern public sphere of Denmark Norway Publications show a surprising variety from serious political economic and philosophical treatises over criticism polemics ridicule entertainment and to spin campaigns obscenities libel threats A successful coup against Struensee led to his subsequent public execution in Copenhagen and the latter half of the period saw the gradual smothering of the new public sphere as well as an international pamphlet storm over what was happening in Denmark Readers all over Europe proved curious to learn about the radical experiment with enlightened absolutism in Denmark interest was heightened by the involvement of the Danish Queen the English princess Caroline Matilda to whom Struensee had an intimate relation The book is a detailed portrayal of a seminal event in the development of the public sphere in Europe
