and Mass Murder Elizabeth A. Gurian,2021-09-30 This book reframes the study of multicide that is serial and mass murder to use objective measures and aims to expand our understanding of multicide offending through descriptive and inferential statistical analyses of different homicide patterns of the offenders Criminal homicide and multiple murders are rare occurrences that typically account for a very small percentage of all violent crimes in most countries Despite this low occurrence homicide continues to be an area of intense study with a focus on subjective measures and classifications The research and analysis based on a database of over 1 300 cases contributes to the criminological study of violence and draws distinctions between the types of offenders partnered and solo serial and mass male and female etc from a range of different countries and across decades Traditionally studies of homicide focus on male offenders and theories of offending are then applied to females and co offenders The research presented in this book reveals that women and partnered offenders have very different homicide patterns from men Looking at the history of multicide offending this book uses descriptive and inferential statistical analyses to directly compare differences in offending and outcome patterns across multicide offender types This exploration of the multidimensionality of homicide at an international level is useful for scholars and students interested in criminal justice criminology psychology sociology or law **Sexual Violence Against Children in Britain**

Since 1965 Nick Basannavar,2021-11-30 This book investigates the changes and continuities in the ways in which sexual violence has been interpreted and represented in Britain since 1965 It explores the representational trail of the Moors

murders and subsequent trial of 1966 the emergence of age of consent abolitionism in the 1970s Cleveland's child sexual abuse crisis of 1987-8 and 2010 and 20s contemplations on the Jimmy Savile scandal Harnessing research into popular media forms and a huge range of personal political and professional records Nick Basannavar carefully parses and illustrates the ways in which journalists medical workers politicians lobbyists and other groups assembled and animated their narratives revealing complex rhetorical and emotional processes This book challenges problematic conceptual dichotomies such as silence noise or ignorance knowledge It shows instead that although categories such as child sexual abuse and paedophilia may be relatively recent linguistic value constructs sexual violence against children has existed and been represented across historical moments in changeable and challenging ways Early Modern English Lives Ronald Bedford, Lloyd Davis, Philippa Kelly, 2007 Early Modern English Lives examines sixteenth and seventeenth century autobiographical practices in key contexts and modes of self representation Moving between diaries letters journals memoirs household and personal accounts and major autobiographical texts the study explores the social and historical conditions that shaped early modern life writing The authors argue that expressions of personal identity along with the notion of privacy itself involved an elaborate interplay of generic roles and cultural discourses **The Ravine** Paul Quarrington, 2009-03-10 One morning in Don Mills Phil and his brother Jay agree to let their friend Norman Kitchen tag along on an adventure down into a ravine and what happens there at the hands of two pitiless teenagers changes all their lives forever Years later the horrifying details are still unclear smothered in layers of deliberate forgetting Phil doesn't even remember the names Ted and Terry Tom and Tony It's only when he descends into a crisis of his own that he comes to realize that perhaps as he drunkenly tells a crisis line counsellor I went down into a ravine and never really came back out The Ravine is Phil's book we read it as he types it in the basement apartment he's called home since his wife kicked him out for having an affair with a make up girl As he writes and then corrects what he's written we hear how he went from promising young playwright to successful self hating TV producer We listen in on his disastrous late night phone calls and watch his brother once a brilliant classical pianist weep to himself as he plays Ravel and Waltzing Matilda in a desolate bar The Ravine tells us all about the influence of The Twilight Zone on Phil's work and his life how it helped him meet his wife Veronica and then lose her and how it led to the bizarre death of his friend TV star Edward Milligan Sometimes when Phil's drunk a friend will look at what he's written so far and call him on it like when Jay tells Phil that he's remembered it all wrong that he was just as good as Phil at tying knots back when they were in the cubs Phil's ravine is his attempt to make sense of things to try to understand how everything went so wrong just as it seemed to be going so right But The Ravine is also a Paul Quarrington novel meaning that it's hilarious and ingenious quietly working its magic until the reader is at once heartbroken and hopeful A darkly funny story about loss and redemption The Ravine is also about how stories are made how they can pull us out of disasters that seem too much for anyone to bear and about how sometimes what we need to forgive ourselves for is not what we think it is at all **The Advocate** ,2004-08-17
