Enchanted by Eternity William J. Slattery,2025-01-20 Whether we realize it or not Catholics have been deeply influenced by modernity s failed worldview While we want to live and share our faith with joy we struggle to do so because we unwittingly see the cosmos the human person and society as machines functioning independently of their Creator and of one another If we want to bring the life transforming effects of our faith into the world we must first find and live real Catholicism breaking free of the gravitational pull of modernity s worldview A worldview is the stable all encompassing way in which each of us looks at reality the pair of glasses through which we see the world around us It makes up the grid of givens assumptions and presuppositions through which we view the world It colors what we mean by God universe and human Everyone has a worldview and recognizing our worldview and the worldviews of others is crucial in our search for truth goodness and beauty In Enchanted by Eternity Fr William Slattery shows how Catholicism proposes an enchanted and enchanting view of self nature society and the future of each human person created to live in a resurrected body in the new heavens and the new earth As this book reveals rediscovering a truly Catholic worldview will change the way we live and it might even change the world **Working Mother** ,2002-10 The magazine that helps career moms balance their personal and professional lives Education Outlook ,1904 **Encyclopedia of Asian Philosophy** Oliver Leaman,2006-10-19

Historicizing Theory Peter C. Herman, 2012-02-01 Historicizing Theory provides the first serious examination of contemporary theory in relation to the various twentieth century historical and political contexts out of which it emerged Theory a broad category that is often used to encompass theoretical approaches as varied as deconstruction New Historicism and postcolonialism has often been derided as a mere relic of the 1960s In order to move beyond such a simplistic assessment the essays in this volume examine such important figures as Harold Bloom Paul de Man Jacques Derrida Michel Foucault Stephen Greenblatt and Edward Said situating their work in a variety of contexts inside and outside of the 1960s including World War II the Holocaust the Algerian civil war and the canon wars of the 1980s In bringing us face to face with the history of theory Historicizing Theory recuperates history for theory and asks us to confront some of the central issues and problems in literary studies today

The Philosophy of Susanne Langer Adrienne Dengerink Chaplin, 2019-10-17 This book is a comprehensive study of one of the most insightful and fertile but also most neglected philosophers of the twentieth century Susanne Langer Failure to recognise Langer s seminal philosophical sources has led to frequent misinterpretations and misunderstandings of her unique philosophical thought Beginning with an overview of Langer s life and education this study provides a much needed explanation of how Langer s thinking was shaped by four seminal sources her mentors Henry Sheffer and Alfred North

Whitehead and the European philosophers Ernst Cassirer and Ludwig Wittgenstein Langer's ability to unite seemingly disparate fields such as logic, art, and embodied cognition around the notion of symbolic form places aesthetics not at the margins of philosophy but at its very centre. By locating Langer's work in the broader context of major developments in twentieth-century European and American philosophy, Dengerink Chaplin shows how she was often ahead of her time. Shedding new light on Langer as an American philosopher whose innovative thought crosses the customary boundaries between analytic and continental philosophy, this book confirms why she continues to have relevance today.
