

A QUICKER GAME

For you to familiar with MONOPOLY® and avoid to play a quicker game:

1. At start, the banker shuffles the two decks (roads and stock) and to each player. Players immediately pay the banker the price for the properties they receive. Play then continues as normal.
2. Players only need to build up three houses on each side of a color group before buying a hotel (instead of four). When adding hotels, the value is half the purchase price.

3. At the end of a second player's game (bankrupt), the game ends. The banker adds the banker unit to add together:

- Money left on their bank card
- Current cash, utilities and transports at the price printed on the board
- Any mortgaged property at half the price printed on the board
- Houses, valued at purchase price
- Hotels, valued at the purchase price including the value of three houses.

The richest player wins the game!

SPEEDY MONOPOLY

Alternatively, agree on a definite time to finish the game. Whoever is the richest player at the time wins!
