part of today's transcultural and highly diverse world. Antiquity in our understanding does not merely belong to the past but is always experienced and engaged in the present. *Thersites* contributes to the critical review on methods, theories, approaches and subjects in classical scholarship which currently seems to be awkwardly divided between traditional perspectives and cultural turns. *Thersites* brings together scholars, writers, essayists, artists and all kinds of agents in the culture industry to get a better understanding of how antiquity constitutes a part of today's culture and transforms our present. *Thersites* appears twice yearly and publishes regular issues as well as specially themed and guest edited issues focused on individual subjects and questions. Call for papers are released regularly and long in advance on our homepage <https://thersitesjournal.de> and on other pages that feature announcements for classical studies.
