The Heart of Business Hubert Joly, 2021-05-04 A Wall Street Journal Bestseller Named a Financial Times top title How to unleash human magic and achieve improbable results Hubert Joly former CEO of Best Buy and orchestrator of the retailer s spectacular turnaround unveils his personal playbook for achieving extraordinary outcomes by putting people and purpose at the heart of business Back in 2012 Everyone thought we were going to die says Joly Eight years later Best Buy was transformed as Joly and his team rebuilt the company into one of the

nation's favorite employers vastly increased customer satisfaction and dramatically grew Best Buy's stock price. Joly and his team also succeeded in making Best Buy a leader in sustainability and innovation. In *The Heart of Business*, Joly shares the philosophy behind the resurgence of Best Buy: pursue a noble purpose, put people at the center of the business, create an environment where every employee can blossom, and treat profit as an outcome, not the goal. This approach is easy to understand, but putting it into practice is not so easy. It requires radically rethinking how we view work, how we define companies, how we motivate, and how we lead. In this book, Joly shares memorable stories, lessons, and practical advice, all drawn from his own personal transformation from a hard-charging McKinsey consultant to a leader who believes in human magic. *The Heart of Business* is a timely guide for leaders ready to abandon old paradigms and lead with purpose and humanity. It shows how we can reinvent capitalism so that it contributes to a sustainable future.

Connected Business

Oliver Gassmann, Fabrizio Ferrandina, 2021-08-11 How do you develop business in a world certain to be dominated by Internet of Things, Artificial Intelligence, and the Economy of Things? This book brings together leading scholars from academia, established practitioners, and thought-leading consultants who analyze and provide guidance to answer this question. Case studies, checklists, success factors help readers get a grip on this fast-paced development. At the same time, the authors do not shy away from addressing the hurdles and barriers to implementation. This book provides an essential food for thought for leaders and managers, both visionary and pragmatic, who are faced with the responsibility of steering their business through these challenging yet exciting times.

Making Policy for the New Information Economy

Krishna Prasad Jayakar, Chun Liu, 2023-09-10 This volume is a theoretically informed comparative analysis of the telecommunications and information policy-making process in two major developing economies, China and India. With a focus on how policies are made rather than what those policies are, the book investigates how policy actors interact within institutional structures to define policy problems and identify potential solutions. The authors explain the evolution of these policy-making systems as the two countries liberalized their economies and opened their media and telecommunications systems to competition over the past two and a half decades. With applications in numerous international contexts, this book will be of interest to scholars and practitioners in public policy studies, telecommunications, business development, economics, political science, Asian studies, and public administration.
