How Credit Cards Work

Please read the sentences below. Then circle the correct answer for each question.

You can use a credit card to pay for a vacation, video games, or eating out. Credit cards allow you to make large purchases and pay them off over time. The credit card company lends you the money to buy things. This money must be repaid because it is borrowed. Every month, the credit card company sends a statement showing how much money needs to be paid.

Section one is **Account Holder**. This section includes information such as the card holder's name, address, and account number.

Name: When you apply for a credit card, the credit card company will review your credit score before giving you a credit card. Your credit score is based on your credit history. Your credit history shows whether you paid your bills and how much money you owe. The credit company may decide not to give you a credit card if you pay your bills late. The credit card company also wants to ensure that you have enough money to pay your credit card bill since a credit card is a loan. Example: Logan L. Lawson

Address: This field is the billing address of the credit card owner. The credit card company will have this information for all cardholders, including those enrolled in paperless billing. Paperless billing is when a person views their bill online rather than receiving a paper bill. Example: 321 Main Street, Apt 54, Adultville, FL 35331

Account Number: This field is the credit card account number, this number should not be shared. Example: 6789 4567 2345 0123
