In this bestselling book, authors Jeff Dyer, Innovation Capital, and The Innovator's Method; Hal Gregersen, Questions Are the Answer; and Clayton M. Christensen, The Innovator's Dilemma, The Innovator's Solution, and How Will You Measure Your Life, build on what we know about disruptive innovation to show how individuals can develop the skills necessary to move progressively from idea to impact. By identifying the winning behaviors of the world's best innovators, from leaders at Amazon and Apple to those at Google, Tesla, and Salesforce, Dyer, Gregersen, and Christensen outline five discovery skills that distinguish innovative entrepreneurs and executives from ordinary managers: associating, questioning, observing, networking, and experimenting. A powerful new edition of the Wall Street Journal bestseller that helps leaders build radically more human and capable organizations. Now more than ever, we need organizations that are daring, resilient, and creative. Unfortunately, when confronted by unprecedented challenges, most companies and institutions prove to be timid, plodding, and orthodox. The culprit is bureaucracy. With its top-down power structures and rule-choked systems, bureaucracy hobbles ingenuity and innovation. In a time of upheaval, these long-tolerated impediments are fast becoming competitively and economically untenable. Humanity needs and deserves something better. In *Humanocracy*, Gary Hamel and Michele Zanini make a passionate, data-driven argument for uninstalling bureaucracy and reinventing management as we know it. In this extensively updated and expanded edition, readers will find new and compelling case studies, the latest research findings, and a wealth of fresh and provocative insights. *Humanocracy* is both a manifesto for institutional renewal and a blueprint for building organizations that are as courageous, energetic, and ingenious as the people inside them. Essential building blocks include: Motivation: Rallying colleagues to the challenge of reimagining management as usual. Models: Leveraging the experience of vanguard organizations that have successfully disrupted the bureaucratic status quo. Mindsets: Escaping the industrial age thinking that undermines the quest to build radically more capable organizations. Mobilization: Activating a pro

change coalition to hack outmoded management systems and processes Migration Embedding the principles of humanocracy ownership markets meritocracy community openness experimentation and paradox in your organization s DNA If you ve finally run out of patience with bureaucratic bullshit if you re eager to build an organization that can outrun change and outperform expectations if you believe every team member deserves the chance to do something extraordinary then this book s for you Entrepreneurship Bruce R. Barringer,R. Duane Ireland,2010 Entrepreneurship takes students on the entire journey of launching a new business venture placing a unique emphasis on the front end of the entrepreneurial process
