Designing and

Implementing Program Evaluation for Teaching and Learning Centers Susan Hines, Catherine Ford, 2024-12-20 This practical guide equips educational developers with a clear systematic approach to evaluating the impact of their center's programs. Evaluation data and evidence can serve as powerful tools to demonstrate alignment with strategic priorities and to construct compelling narratives that highlight the value added by educational development opportunities. Drawing from 10 years of in-depth research investigating how teaching and learning centers evaluate their programs, this book provides a four-phase model flexible enough to fit centers of any size. The authors' accessible outcomes-based approach outlines essential steps and strategies in designing and implementing an evaluation plan tailored to their center's specific needs. The illustrative figures, practical examples, customizable templates, and real-world scenarios ensure that the model is comprehensive while also being straightforward and easy to apply. This book is an indispensable resource for directors and staff working in teaching and learning centers, chief academic officers and deans, and administrators responsible for educational development at the college level.

Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope Antonia Elisabeth Enikoe Baumeister, Hui Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care (ECEC) are to offer children from all social backgrounds a good start in their lives, to support parenting as well as families' workforce participation, and thereby to sustainably strengthen the national economy over current and future generations. High-quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors. For these reasons, governments, ECEC providers, and researchers are placing an increasing focus on the frameworks and systems that underpin quality, as well as the measures that assess quality. At the same time, however, research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high-quality ECEC can only be reached when all stakeholders' needs are acknowledged and sufficiently met. For example, recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders, and thus the sustainability of these quality efforts may be in doubt. New challenges also include the ever-changing nature and circumstances affecting ECEC stakeholders, for example, the greater flows of refugee families and the impact of the COVID-19 pandemic. This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments, providers, and the scientific community about best practices and new solutions for conceptualizing, measuring, and improving ECEC quality. The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing, assessing, and improving quality in ECEC. We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC, including government regulatory authorities, service providers, educators, families, communities, and children. We also believe that wide-ranging stakeholder input will generate innovative methods for assessing and improving quality that keep

pace with our rapidly changing information society Two further foci are set on ECEC practices 1 that support participation diversity and inclusion of all children and families and 2 that are suitable for developing countries and diverse populations within countries In this the focus is not only on best practices but also on the limitations of practices In soliciting research articles on ECEC stakeholder perspectives we describe stakeholders as inclusive of government non government regulatory agencies service providers teachers and caregivers families communities and children Themes of interest include but are not limited to Assessment of quality in ECEC including self assessment approaches The design of and use of quality frameworks in ECEC Effects of quality and of quality improvement on children and families Drivers and indicators of quality improvement Acceptance and sustainability of quality efforts among ECEC stakeholders Policy expectations of quality rating and improvement systems e g funding policy The role of teacher and caregiver professionalization All types of center based and home based ECEC We are interested both in quantitative and qualitative research designs as well as in mixed methods research Cross sectional longitudinal quasi experimental and case study designs are welcome The following article types are welcome original research empirical studies systematic reviews community case studies policy briefs articles and brief research reports

Scandinavia and Bismarck Rasmus Glenthøj,Morten Nordhagen Ottosen,2024-05-13 This book accounts for Scandinavian unification efforts in a time of great upheaval The ideological repercussions of the European revolutions of 1848 1849 and the Crimean War 1853 1856 transformed both the international political system and nationalism into more realist types The First Schleswig War 1848 1851 having nearly turned into one of Scandinavian unification the influence of Scandinavianism extended into the Danish Swedish and Norwegian courts cabinets and parliaments attracting interest from the great powers The Crimean War offered another window of opportunity for Scandinavian unification before the Danish German conflict over the duchies of Schleswig and Holstein nearly united Scandinavia upon the outbreak of the Second Schleswig War in 1864 The ultimate failure of Scandinavianism in its unification efforts was not predetermined although historiography has made it appear as such Napoleon III Cavour and Bismarck all actively contributed to plans for Scandinavian unification the latter even declaring himself as very strongly Scandinavian
