No Rules Rules Reed Hastings, Erin Meyer, 2020-09-08 The New York Times bestseller Shortlisted for the 2020 Financial Times McKinsey Business Book of the Year Netflix cofounder Reed Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative imaginative and successful companies There has never before been a company like Netflix It has led nothing short of a revolution in the entertainment industries generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries But to reach these great heights Netflix which launched in 1998 as an online DVD rental service has had to reinvent itself over and over again This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning Hastings rejected the conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility one that has allowed Netflix to adapt and innovate as the needs of its members and the world have simultaneously transformed Hastings set new standards valuing people over process emphasizing innovation over efficiency and giving employees context not controls At Netflix there are no vacation or expense policies At Netflix adequate performance gets a generous severance and hard work is irrelevant At Netflix you don't try to please your boss you give candid feedback instead At Netflix employees don't need approval and the company pays top of market When Hastings and his team first devised these unorthodox principles the implications were unknown and untested But in just a short period their methods led to unparalleled speed and boldness as Netflix quickly became one of the most loved brands in the world Here for the first time Hastings and Erin Meyer bestselling author of *The Culture Map* and one of the world's most influential business thinkers dive deep into the controversial ideologies at the heart of the Netflix psyche which have generated results that are the envy of the business world Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never before told stories of trial and error from Hastings's own career *No Rules Rules* is the fascinating and untold account of the philosophy behind one of the world's most innovative imaginative and successful companies

**Next Generation Mobile Broadcasting** David Gómez-Barquero, 2013-03-26 *Next Generation Mobile Broadcasting* provides an overview of the past present and future of mobile multimedia broadcasting The first part of the book *Mobile Broadcasting Worldwide* summarizes next generation mobile broadcasting technologies currently available This part covers the evolutions of the Japanese mobile broadcasting standard ISDB-T One Seg ISDB-Tmm and ISDB-TSB the evolution of the South Korean T-DMB mobile broadcasting technology AT-DMB the American mobile broadcasting standard ATSC-M/H the Chinese broadcasting technologies DTMB and CMMB second generation digital terrestrial TV European standard DVB-T2 and its mobile profile T2-Lite and the multicast broadcast extension of 4G-LTE cellular standard E-MBMS This part includes a chapter about a common broadcast specification of state-of-the-art 3GPP and DVB standards to provide a broadcast overlay optimized for mobile and operated in

conjunction with a broadband unicast access It also contains an overview chapter on a new High Efficiency Video Coding HEVC standard that is expected to provide significantly improved coding efficiency compared to current MPEG 4 AVC video coding The second part of the book Next Generation Handheld DVB Technology DVB NGH describes the latest mobile broadcast technology known as Digital Video Broadcasting Next Generation Handheld DVB NGH which is expected to significantly outperform all existing technologies in both capacity and coverage DVB NGH introduces new technological solutions that along with the high performance of DVB T2 make DVB NGH a powerful next generation mobile multimedia broadcasting technology In fact DVB NGH can be regarded as the first 3G broadcasting system because it allows for the possibility of using multiple input multiple output MIMO antenna schemes to overcome the Shannon limit of single antenna wireless communications DVB NGH also allows the deployment of an optional satellite component forming a hybrid terrestrial satellite network topology to improve coverage in rural areas where the installation of terrestrial networks is economically unfeasible Although the commercial deployment of DVB NGH is nowadays unclear after its standardization it will be a reference point for future generations of digital terrestrial television technologies Edited by a member of the DVB NGH standardization group the book includes contributions from a number of standardization groups worldwide including Digital Video Broadcasting DVB in Europe Advanced Television Systems Committee ATSC in the US Korea Japan and China Third Generation Partnership Project 3GPP and the Moving Picture Experts Group MPEG

DeCesare, 2014-03-27 According to a 2012 Ithaka study 80 percent of faculty in the humanities and 70 percent in social sciences use video film and non textual resources for teaching undergraduates Streaming video is not simply an accommodation to distance learners rather it s an expectation for the curriculum and a valuable tool for teaching critical thinking skills analysis and the use of primary sources This issue of Library Technology Reports will help you recommend high quality video resources for faculty and researchers with information on 75 YouTube channels for teaching learning and research 11 interdisciplinary video and multimedia sites with annotations on features and content 6 open access course collections 5 university channels and collections Using video with Moodle Sakai LibGuides or WordPress Mass market video sites that offer library friendly business models

*Streaming and Copyright Law* Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law

because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
