Adaptation Online Lyndsay Michalik Gratch, 2017-09-05 *Adaptation Online* Creating Memes Sweding Movies and other Digital Performances explores how traditional notions of the processes and products of creative adaptation are evolving online Using a performance lens and a shift in terminology from the metaphor of the cultural meme to the framing that adaptation affords Lyndsay Michalik Gratch considers online adaptations in terms of creative process and human agency rather than merely as products This book offers a glossary of strategies for online adaptation that is useful not

only for scholars in performance studies but also for scholars of cinema communications and new media studies **Work That Body** Jamie Hakim, 2019-10-16 *Work That Body* Male Bodies in Digital Culture explores the recent rise in different types of men using digital media to sexualise their bodies It argues that the male body has become a key site in contemporary culture where neoliberalism's hegemony has been both secured and contested since 2008 It does this by looking at four different case studies the celebrity male nude leak the rise of young men sharing images of their muscular bodies on social media RuPaul's Drag Race body transformational tutorial and the rise of chemsex It finds that on the one hand digital media has enabled men to transform their bodies into tools of value creation in economic contexts where the historical means they have relied on to create value have diminished On the other it has also allowed them to use their bodies to form intimate collective bonds during a moment when competitive individualism continued to be the privileged mode of being in the world It therefore offers a unique contribution not only to the field of digital cultural studies but also to the growing cultural studies literature attempting to map the historical contradictions of the austerity moment New Media and Society Deana A. Rohlinger, 2019-02-05 A sociological approach to understanding new media's impact on society We use cell phones computers and tablets to access the Internet read the news watch television chat with our friends make our appointments and post on social networking sites New media provide the backdrop for most of our encounters We swim in a technological world yet we rarely think about how new media potentially change the ways in which we interact with one another or shape how we live our lives In *New Media and Society* Deana Rohlinger provides a sociological approach to understanding how new media shape our interactions our experiences and our institutions Using case studies and in class exercises Rohlinger explores how new media alter everything from our relationships with friends and family to our experiences in the workplace Each chapter takes up a different topic our sense of self and our relationships education religion law work and politics and assesses how new media alter our worlds as well as our expectations and experiences in institutional settings Instead of arguing that these changes are good or bad for American society the book uses sociological theory to challenge readers to think about the consequences of these changes which typically have both positive and negative aspects *New Media and Society* begins with a brief explanation of new media and social institutions highlighting how sociologists understand complex changing relationships After outlining the influence of new media on our identities and relationships it discusses the effects new media have on how we think about education practice our religions understand police surveillance conceptualize work and participate in politics Each chapter includes key sociological concepts engaging activities that illustrate the ideas covered in the chapter as well as links films and references to additional online material *Codename Zero* Chris Rylander, 2014-02-04 From Chris Rylander author of the breakout hit *Fourth Stall* saga comes an incredibly funny and clever mash up of middle grade school story and spy adventure There are places in the world where heroes are born There are places where brave men and women fight a never ending battle against evil in order to keep our country and all other countries safe There are

places where the fate of our planet is being decided even at this very moment the consequences of which will echo through history None of these places is in North Dakota Carson Fender seventh grader and notorious prankster knows this He s lived in North Dakota for his entire life going to the same boring school every day the same boring movie theater every week the same boring state fair every year Nothing ever changes and nothing ever happens That is until today Because today a desperate man hands him a package with a dire set of instructions And that package is going to lead Carson to discover that there s a secret government agency operating in his small quiet North Dakota hometown And that this agency needs his help
