New Power Jeremy Heimans, Henry Timms, 2018-04-03 From two influential and visionary thinkers comes a big idea that is changing the way movements catch fire and ideas spread in our highly connected world For the vast majority of human history power has been held by the few Old power is closed inaccessible and leader driven Once gained it is jealously guarded and the powerful spend it carefully like currency But the technological revolution of the past two decades has made possible a new form of power one that operates differently like a current New power is made by many it is open participatory often leaderless and peer driven Like water or electricity it is most forceful when it surges The goal with new power is not to hoard it but to channel it New power is behind the rise of participatory communities like Facebook and YouTube sharing services like Uber and Airbnb and rapid fire social movements like Brexit and BlackLivesMatter It explains the unlikely success of Barack Obama's 2008 campaign and the unlikelier victory of Donald Trump in 2016 And it gives ISIS its power to propagate its brand and distribute its violence Even old power institutions like the Papacy NASA and LEGO have tapped into the strength of the crowd to stage improbable reinventions In New Power the business leaders social visionaries Jeremy Heimans and Henry Timms provide the tools for using new power to successfully spread an idea or lead a movement in the twenty first century Drawing on examples from business politics and social justice they explain the new world we live in a world where connectivity has made change shocking and swift and a world in which everyone expects to participate My Digital Entertainment for Seniors (Covers movies, TV, music, books and more on your smartphone, tablet, or computer) Jason R.
