You Are Here Hiawatha Bray, 2014-04-01 Provides an overview of the development of technologies that eventually led to the modern era of knowing where you are at every moment from radio signals that carried telegraph messages to invisible ship guiding beacons to GPS 17 500 first printing

Net Works xtine burrough, 2012-05-23 Net Works offers an inside look into the process of successfully developing thoughtful innovative digital media In many practice based art texts and classrooms technology is divorced from the socio political concerns of those using it Although there are many resources for media theorists practice based students sometimes find it difficult to engage with a text that fails to relate theoretical concerns to the act of creating Net Works strives to fill that gap Using websites as case studies each chapter introduces a different style of web project from formalist play to social activism to data visualization and then includes the artists or entrepreneurs reflections on the particular challenges and outcomes of developing that web project Scholarly introductions to each section apply a theoretical frame for the projects A companion website offers further resources for hands on learning Combining practical skills for web authoring with critical perspectives on the web Net Works is ideal for courses in new media design art communication critical studies media and technology or popular digital internet culture

The Digital Journey of Banking and Insurance, Volume III Volker Liermann, Claus Stegmann, 2021-10-27 This book the third one of three volumes focuses on data and the actions around data like storage and processing The angle shifts over the volumes from a business driven approach in Disruption and DNA to a strong technical focus in Data Storage Processing and Analysis leaving Digitalization and Machine Learning Applications with the business and technical aspects in between In the last volume of the series Data Storage Processing and Analysis the shifts in the way we deal with data are addressed

I-15 Corridor Utah County to Salt Lake County, Utah and Salt Lake Counties, 2008

Numbered Highways in America (CDP), New York, Extended Epistemology J. Adam Carter, Andy Clark, Jesper Kallestrup, S. Orestis Palermos, Duncan Pritchard, 2018-04-26 One of the most important research programmes in contemporary cognitive science is that of extended cognition whereby features of a subject's cognitive environment can in certain conditions become constituent parts of the cognitive process itself The aim of this volume is to explore the epistemological ramifications of this idea The volume brings together a range of distinguished and emerging academics from a variety of different perspectives to investigate the very idea of an extended epistemology The first part of the volume explores foundational issues with regard to an extended epistemology including from a critical perspective The second part of the volume examines the applications of extended epistemology and the new theoretical directions that it might take us These include its ethical ramifications its import to the epistemology of education and emerging digital technologies and how this idea might dovetail with certain themes in Chinese philosophy

Street Sensing Fang-Ying Gong, 2025-06-30 Combining publicly available Google Street View GSV images with deep learning and radiative transfer models enables researchers to assess urban physical and thermal environments

especially in high density areas This book introduces this advanced approach which provides large scale high accuracy and high density measurements of street level urban features key to understanding urban radiation balance and thermal dynamics By leveraging GSV images this method directly characterizes urban streetscapes including structural and geometric attributes allowing for a comprehensive assessment Moreover the methods can be applied to any geographical location covered by GSV making it a low cost and effective tool for urban studies globally This is particularly advantageous compared to traditional 3D GIS models which may not always be freely available or as extensive in coverage as GSV images Lessons from Street Sensing provide data driven insights for urban planning and governance The accurate mapping of street view factors and solar irradiance helps identify areas with insufficient greenery excessive or insufficient solar exposure and other urban environment issues These insights can help policymakers and urban planners mitigate negative environmental impacts and improve urban living conditions
