**ICEBE 2021** Darmawan Napitupulu, Tata Sutabri, Dahlan Abdullah, 2022-04-20 ICEBE is International Conference of Economics Business Entrepreneurship on Global Innovation and Trend in Economy The fourth ICEBE 2021 conference was held on October 7 2021 as a joint collaboration from four distinguished universities in Indonesia which are Universitas Lampung Universitas Multimedia Nusantara Universitas Bhayangkara Raya Jaya and Universitas Malahayati This conference has brought researchers scholars and practitioners who were passionate to share their thoughts and research findings on current business management accounting and economics latest issues The theme of ICEBE 2021 was Reshaping Business Strategy Through Technological Innovation from Post Covid 19 Recovery

**Omni-Channel Retail and the Supply Chain** Paul Myerson, 2020-11-25 Omni Channel Retail and the Supply Chain The days of going to the local department store to buy a television view the options available and make a purchase now seem quaint The emergence of the internet smartphones social media and other technologies has opened a world of new options for consumers and businesses to review research and buy online with an ever increasing array of delivery options The emergence of e commerce has resulted in what is commonly known today as omni channel marketing in which customers engage with companies in a variety of ways including in a physical store or online via websites and mobile apps This process puts the supply chain front and center as consumers are increasingly demanding and browsing buying and returning goods through various channels not just the traditional brick and mortar way To accomplish this with high levels of

service while remaining profitable requires real time visibility of inventory across the supply chain and a single view of consumers as they continuously move from one channel to another While this is a boon to consumers it has made the already complex global supply chain even more challenging to manage On top of that the 2020 Covid19 pandemic has accelerated this omni channel retail trend as consumers need even more ways to order and additional options for last mile delivery such as curbside pickup Covid19 has exposed a lack of flexibility and readiness resulting in shortages of everything from toilet paper and meats to personal protective equipment PPE and ventilators It has been a real life example of the bullwhip effect where variability at the consumer end of the supply chain results in increased variability as one goes upstream towards distributors manufacturers and suppliers This results in shortages misallocations and increased costs No longer can a manufacturer distributor or retailer of consumer products just fill the pipeline and wait for orders to come in Now they must anticipate various purchases and delivery items while at the same time minimizing costs To do this is no easy task requiring a Lean agile and responsive supply chain Until now there was no existing playbook for organizations to navigate their way through this new world This book describes the impact of omni channel marketing on the supply chain and logistics functions and is intended to help management meet the needs of not only today s ever changing world but to anticipate what may be required in the future to achieve superior customer service profitability and a competitive advantage
