Virtual Mental Health Care for Rural and Underserved Settings Donald M. Hilty, Matthew C. Mishkind, Tania S.

Malik, Allison Crawford, 2022-10-26 This book focuses on the critical area of delivering mental health services in rural settings. It is designed as a practical guide to the technological provision of timely effective evidence based care helpful to the novice and the experienced practitioner alike. The benefits of this approach are Improved access to and improved quality of care. Technical support for providers and administrators. A means of providing missing specialty care. An ability to maximize scarce resources and significant flexibility for health service delivery. The book will cover how to adjust therapeutic skills to patients' needs, models of care and the particular technology used. It shows how rudimentary design of workflow can assist in integrating care and highlights the importance of allowing for cultural needs both rural geography and ethnic race. Administrative issues are also addressed e.g. privacy reimbursement. The chapters are short and designed for maximum practicality including learning objectives, cases and summaries emphasizing what to do and how to do it.

Pervasive Computing Technologies for Healthcare Hadas Lewy, Refael Barkan, 2022-03-22 This book constitutes the refereed proceedings of the 15th International Conference on Pervasive Computing Technologies for Healthcare Pervasive Health 2021 held in December 2021. Due to COVID 19 pandemic the conference was held virtually. The 28 full and 7 short papers were selected from 74 submissions and are organized in 3 main tracks: hospitality and community care, homecare and medical education. The COVID 19 pandemic was challenging all dimensions of Pervasive Health PH and traditional ways of monitoring, diagnosing, treating and communicating changed dramatically.

Psychiatric-Mental Health Guidelines for Advanced Practice Nurses Brenda Marshall, Julie Bliss, Suzanne Drake, 2024-11-20 Delivers a breadth of content encompassing all aspects of psych mental health care along the provider continuum. This unique clinical reference supports APRNs and PMH NPs as they strive to provide high quality evidence based care to patients with mental health issues and conditions. Designed to support the ongoing needs and changing practice requirements of these nursing professionals, this new text provides a comprehensive examination of best practice psychiatric methods, ethical concerns, patient assessment and management strategies. These accessible guidelines for clinicians in a variety of settings bring together scientific skills backed by theory and professional knowledge along with helpful recommendations to bolster the clinician's psychiatric skills. With an easy to navigate format, the book encompasses five distinct sections covering general psychiatric nursing guidelines, diagnostic specific procedures and patient treatment planning, cultural and other considerations for special populations, the administrative basics for establishing an APRN practice and additional topics related to mental health. Reflecting expertise from authors versed in varied practice fields and numerous subspecialties, the resource combines evidence based practice, advanced research and practical humanistic approaches.
