The Report: Kuwait 2016 Oxford Business Group,2016-09-16 Home to the largest per capita reserves and fourth largest total reserves of crude oil within OPEC Kuwait's public finances have suffered in 2016 following the rapid decline in oil prices which drove oil revenues down from 108.6bn in 2013 to 51.8bn in 2015. Despite this, Kuwait has resisted significant budgetary cutbacks: spending levels in 2016 were cut by just 1.6% and the considerable financial buffers built up from budget surpluses in the years leading up to 2014 are expected to cushion the budget deficit. The country continues to push ahead with key public investments with Parliament allocating 155bn to the Kuwait Development Plan 2015-20 to fund infrastructure, utilities and housing developments. The plan focuses on further integrating the private sector into areas of the economy traditionally under state control and aims to raise the non-oil sector's GDP contribution to 64% in 2015-20 up from an average of 45.1% in 2010-13. Elsewhere, promising moves are being made to cut state subsidies, with the government opting to liberalise diesel and kerosene prices and reduce subsidies on aviation fuel in January 2015, generating savings equal to 0.3% of GDP.

The Wine Spectator,1997 *The Open Organization* Philip A. Foster,2016-02-17 What is it that makes certain organizations more successful? Organization design and its management has long been the fixation of leaders and scholars alike. Cracking the code to the perfect organizational ecosystem appears to be the dividing line between great success and mediocrity. The 21st century launched with great volatility and a level of cultural and global diversity unknown by previous generations. This instability demands new approaches and methods for the delivery of products, services and ideas. We can no longer afford to run organizations with 19th and 20th century ideas. The pressures of shifting demographics, culture and technology require new approaches to organizational leadership and structures. Welcome to the era of the Open Organization. *The Open Organization: A New Era of Leadership and Organizational Development* by Dr Philip A Foster is divided into three distinct parts: the first explores the foundations of an Open Organization, covering the evolution of leadership and organization theories from the beginning of known time through to the 21st century; the second discusses the elements of such an organization, presenting the ecosystem of an Open System with its structure, culture and decision-making functions; while the third examines the 21st century organization, questioning who should go Open and reviewing the reality of creating this type of organization, understanding control and resistance and addressing the matter of bringing about change.
