You Should Quit Reddit Jacob Desforges,2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit s r NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple You Should Quit Reddit is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit s flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

**Modern Romance** Aziz Ansari,Eric Klinenberg,2016-06-14 The 1 New York Times Bestseller An engaging look at the often head scratching frequently infuriating mating behaviors that shape our love lives Refinery 29 A hilarious thoughtful and in depth exploration of the pleasures and perils of modern romance from Aziz Ansari the star of Master of None and one of this generation s sharpest comedic voices At some point every one of us embarks on a journey to find love We meet people date get into and out of relationships all with the hope of finding someone with whom we share a deep connection This seems standard now but it s wildly different from what people did even just decades ago Single people today have more romantic options than at any point in human history With technology our abilities to connect with and sort through these options are staggering So why are so many people frustrated Some of our problems are unique to our time Why did this guy just text me an emoji of a pizza Should I go out with this girl even though she listed Combos as one of her favorite snack foods Combos My girlfriend just got a message from some dude named Nathan Who s Nathan Did he just send her a photo of his penis Should I check just to be sure But the transformation of our romantic lives

can't be explained by technology alone. In a short period of time the whole culture of finding love has changed dramatically. A few decades ago people would find a decent person who lived in their neighborhood. Their families would meet and after deciding neither party seemed like a murderer they would get married and soon have a kid all by the time they were twenty-four. Today people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance* the book he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit which drew thousands of messages. They enlisted the world's leading social scientists including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.
