

Hello,

My name is Abaho Katabarwa, and I'm a Stanford senior majoring in Computer Science with a concentration in Artificial Intelligence and a passion for mobile development. I've spent the last 8 months teaching myself both Android and iOS, and I've developed a lot of simple applications on each platform. This coming week, I'm going to release my first ready-to-distribute iOS application (which I hope to share with you).

Mobile development is not all I do. Think of it as my outlet for my desire to make beautiful and useful products that actually make people's lives better. When I'm not coding or getting excited about coding, you can find me running around campus as fast as I can since I'm a competitive distance runner. If I'm not doing that, you may find me playing guitar and singing with my funk band.

I've been using Venmo for over a year now, and everytime I use it, I get this overwhelming sense of "Wow, that was easy and amazing." I wouldn't want to imagine my life without Venmo. I really believe that Venmo has broken into a market that is going to be the way of the future. What I'm trying to say is that I believe in Venmo, and I'm incredibly excited about the opportunity to be apart of that future.

Team, 2012-02-12 ABOUT THE BOOK If a resume is a window into your past work experience a cover letter is the tool you use to install it Cover letters were once just an after thought something most people used to simply regurgitate their resumes In fact it wasn't until the last decade that cover letters gained wide acceptance and importance Today not only is the cover letter just as important as a resume it can be the deciding factor in whether a hiring manager looks at your resume or throws it in the trash But how do you write the kind of amazing cover letter that will get you in the door How can you create a narrative of your professional experience that makes the HR person sit up and take notice The key is knowing how to present yourself It does not matter if you've spent 30 years in the work force or are just entering it the fact remains that you need to learn to how convince someone else to interview you MEET THE AUTHOR The Hyperink Team works hard to bring you high quality engaging fun content If ever you have any questions about our products or suggestions for how we can make them better please don't hesitate to contact us Happy reading EXCERPT FROM THE BOOK You've probably figured out a few mistakes to avoid already but you'd probably be surprised at what many employers are turned off by when reading cover letters Lack of proofreading This is a no brainer but many people often miss them or don't bother to spell check before sending out the cover letter and resume It's always a good idea to ask a friend or family member to check your letter for
