lifestyle By the time my wife Susan and I opened our own restaurant and bakery in 1986 I weighed 155 pounds and had become stocky When we sold the business seven years later I was up to 165 pounds and would have been heavier were it not for the daily physically intense work of baking thousands of loaves of bread which helped me burn off a lot of calories As soon as I stepped out of daily production and transitioned into teaching at culinary schools and writing books I started gaining more weight and quickly The accumulated effects of tasting glorious white flour breads of all types along with access to the handiwork of fabulous chefs and restaurants to which I lost all ability to say no caused my weight to balloon to over 200 pounds Searching for the perfect pizza as I researched my book American Pie didn't help either but I sure was having fun Fortunately I never stopped working out so even though I was to put it bluntly fat it was firm fat marbled with muscle Nonetheless it was cause for concern especially that most pernicious of fats belly fat So recently with Susan's encouragement I decided it was time to get serious about losing weight I had already met Denene Wallace a few years earlier at a private tasting of some of her gluten free products and was impressed with how good they were Gluten sensitivity is a subject I had been tracking since 1991 shortly after my first book Brother Juniper's Bread Book came out Around that time Loree Starr Brown who had been a regular customer at Brother Juniper's Bakery came in one day with a box of homemade breads and muffins based on the recipes in my book but all made with rice flour instead of wheat flour They were delicious Loree proceeded to educate me about celiac disease a medical condition that nearly killed her before it was finally diagnosed and treated by removing all traces of gluten from her diet

Low Carb Low Calorie High Protein 250 Diabetes Recipes Judy Bushell, Even though low carb diets tend to fill people up so they naturally limit their eating some low carbers find that at some point they need to at least keep an eye on calories Patients who consumed only 600 calories a day for two months were able to reverse their Type 2 diabetes according to a groundbreaking British study The research involving just 11 patients suggests a low carb low calorie diet can remove fat that clogs the pancreas allowing normal insulin secretion to be restored But before you start a diabetes weight loss plan it s important to work closely with your doctor or diabetes educator because while you re dieting your blood sugar insulin and medications need special attention All the recipes also include detailed information on calories fat saturated fat carbohydrates protein fiber and sodium as well as serving sizes with total preparation and cooking time *Wheat Belly Gluten Free Low Carb Healthy Heart Recipes* Steve Fuhrman, You have to watch your carbohydrate intake and many gluten

free products are very high in carbs and if you simply replace your favorite cookies cakes breads and pastas with gluten free alternatives you aren't really saving any calories or carbs. In fact some of these replacements may even be higher in calories fat and carbs than what you were eating earlier. After all gluten free products are typically marketed to those with celiac disease who have gluten intolerance and are not being marketed as a weight loss or low cholesterol low fat food. All recipes also include detailed information on calories fat saturated fat carbohydrates protein fiber and sodium as well as serving sizes. Heart disease is currently the 1 leading cause of death for both men and women. Sometimes after the celiac patient has healed their intestines they have been consuming many gluten free products that are easy on their gut but still loaded with excessive calories fat salt and sugar. This can contribute to a weight gain and additional risk factors like high cholesterol and blood pressure that ultimately lead to heart disease.
