Although the year 1984 is hurtling back into the distant past Orwell's novel *Nineteen Eighty Four* continues to have a huge readership and to help shape the world of 2084 Sales of Orwell's terrifying tale have recently spiked because of current worries about alternate facts post truth and fake news *1984 and Philosophy* brings together brand new up to the minute thinking by philosophers about *Nineteen Eighty Four* as it relates to today's culture politics and everyday life Some of the thinking amounts to thoughtcrime but we managed to sneak it past the agents of the Ministry of Truth so this is a book to be read quickly before the words on the page mysteriously transform into something different Who's controlling our lives and are they getting even more levers to control us Is truth objective or just made up What did Orwell get right and did he get some things wrong Are social media opportunities for liberation or instruments of oppression How can we fight back against totalitarian control Can Big Brother compel us to love him How does the language we use affect the way we think Do we really need the unifying power of hate Why did Orwell make *Nineteen Eighty Four* so desperately hopeless Can science be protected from poisonous ideology Can we really believe two contradictory things at once Who surveils the surveilors *My Psychology* Andrew M.
