Tracie T Franks, 2023-03-29 The popular video sharing app TikTok came under fire from the US government in 2020 owing to concerns about its Chinese ownership and the potential threat it posed to national security As a result the Trump administration issued an executive order effectively banning TikTok in the US unless it was sold to a US based company ByteDance TikTok s parent company initially challenged the ban in court claiming that it was not based on credible evidence and would violate the company s right to due process However a federal judge granted an injunction against the ban in September 2020 citing concerns about the government s authority to prohibit internet activity A higher court later overturned the injunction in December 2020 but the ban was never fully implemented due to ongoing legal challenges and negotiations Meanwhile TikTok continued to operate in the United States albeit with some restrictions and increased government scrutiny TikTok tentatively agreed to sell its US operations to Oracle and Walmart in November 2020 which was seen as a potential solution to the ban However when the Biden administration took office in January 2021 this agreement was put on hold and the future of TikTok in the United States remains uncertain TikTok is still available in the United States as of early 2023 and is one of the most popular social media platforms in the country However the battle over its ownership and potential national security risks remains a contentious and divisive issue Partisan Rhetoric and Polarization Robert X. rights guaranteed under the EU Charter of Fundamental Rights EU Charter concerning privacy and personal data while also maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area
