Liquid Mariam Rahmani, 2025-03-11 The Marriage Plot meets The Idiot in this brilliant debut which tells the story of a young Muslim scholar stuck in the mire of adjunct professorship in Los Angeles who decides to give up her career in academia and marry rich committing herself to 100 dates in the course of a single summer By midsummer reality hits taking

her and her project to Tehran The unnamed Iranian Indian American narrator of *Liquid* has always believed herself to be the smartest person in the room And from an early age she and her best friend a poet turned marketer named Adam have turned their noses up at other peoples riches But two years after earning a PhD from UCLA the narrator is no closer to the middle class comfort promised to her by the prestige of her fancy scholarship funded education and the successes of her immigrant parents Jokingly Adam suggests she just marry rich But our protagonist whose PhD thesis compared Eastern and Western views of marriage in film and literature takes the idea seriously She makes a spreadsheet and outlines a goal 100 dates with people of all genders and a marriage proposal in hand by the official start of the fall semester What follows is a whirlwind summer packed with dating martinis sans vermouth with the lazy scion of an Eastside construction empire board games with a butch producer who owns a house in the hills and a newly dented Porsche a Venmo request from a socialist trust fund babe and an evening spent dodging the halitosis of a maxillofacial surgeon from Orange County Only a tragedy in Tehran and an overdue familial reckoning can alter the narrator s increasingly manic trajectory and force her to confront the contradictions of her life in Los Angeles And as doubts begin to creep in about her marriage project it suddenly seems possible that the eligible prospect she s been looking for has been beneath her nose the entire time For fans of Kaveh Akbar and Elif Batuman *Liquid* delivers a modern tale of romance loss and belonging like no other Mariam Rahmani s gorgeous high wire satire explodes off the page with verve and originality in this riveting spin on the classic romantic comedy

Artificial Intelligence
Alfio Quarteroni, 2025-07-19 Artificial intelligence AI is transforming multiple aspects of human life raising fundamental questions Is AI truly intelligent Can it surpass human capabilities What are its risks and opportunities In this book I aim to clarify what AI really is debunking myths while offering a rigorous balanced perspective on its impact Rather than chasing the latest AI trends I will focus on the core principles that define it tracing its evolution from early pioneers like Alan Turing to today s advanced systems AI remains in the realm of narrow intelligence excelling at specific tasks but far from replicating human cognition Yet its ability to process vast data predict behaviors and generate creative content is reshaping industries from healthcare to finance At the heart of AI s progress is machine learning particularly neural networks which rely more on data driven training than traditional scientific theory However this innovation comes with challenges environmental costs job market disruptions ethical dilemmas and the black box problem AI s decision making opacity which raises concerns about trust and accountability AI also plays a growing role in global power dynamics influencing governance security and even democracy Nations leading AI development gain strategic advantages but without careful regulation AI could fuel inequality surveillance and manipulation Despite the fears AI evokes it is neither an existential threat nor a magical solution My goal is not to celebrate or demonize it but to provide a critical framework for understanding this technological revolution By fostering awareness we can shape AI s integration into society in a way that aligns with human values and scientific progress
